## APPENDIX No. 1.

### MAYOR'S OFFICE OF THE CITY OF PHILADELPHIA, *July 22, 1873.*

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—I herewith transmit for your consideration a communication from Samuel L. Smedley, Chief Engineer and Surveyor, with accompanying correspondence, setting forth the abandonment of the contract for the construction of Fairmount Bridge by the contractor, which contract was authorized by resolution of Councils, approved the 29th day of December, 1871, and entered into on the eleventh day of July, 1872, as will appear by the copy of the contract, &c., hereto appended.

As the construction of this bridge is a matter of great public importance, I called you together after consultation with the Law Department of the City, for the purpose of devising expedients to meet the emergency.

I earnestly recommend your early adoption of measures for the continuance of the work and completion of the bridge, and for the protection of the City from loss.

I am, respectfully,  
WM. S. STOKLEY,  
*Mayor.*

OFFICE OF THE  
CHIEF ENGINEER AND SURVEYOR,  
PHILADELPHIA, *July 17, 1873.*

HON. WM. S. STOKLEY,  
Mayor of the City of Philadelphia :

DEAR SIR :—I enclose you my report to City Councils that James F. Kennedy, contractor for masonry of Fairmount Bridge, has abandoned the contract.

As Councils have adjourned until October, I would re-

spectfully suggest that a special meeting of Councils should be called to take action thereon at an early day, on account of the great public necessity for the completion of the work.

Very truly,  
SAML. L. SMEDLEY,  
*Chief Engineer and Surveyor.*

OFFICE OF THE  
CHIEF ENGINEER AND SURVEYOR,  
PHILADELPHIA, *July 17, 1873.*

To the Select and Common Councils  
of the City of Philadelphia:

GENTLEMEN:—It becomes my duty to inform you that James F. Kennedy, contractor for masonry on Fairmount Bridge, suspended work there on Saturday morning, the 12th inst.

My formal directions to him to proceed with the work have not been complied with.

I now report to your honorable bodies that said James F. Kennedy has abandoned his contract on Fairmount Bridge, by ceasing to work thereunder, and is not prosecuting the same with a sufficient number of workmen.

A copy of the contract, with our recent correspondence relative thereto, is appended. I am prepared to furnish you such additional information as I have in my possession, and shall await your action and direction in the matter.

Respectfully submitted,

SAML. L. SMEDLEY,  
*Chief Engineer and Surveyor.*

## CORRESPONDENCE RELATIVE TO FAIRMOUNT BRIDGE CONTRACTS.

CONTRACTOR'S OFFICE, FAIRMOUNT BRIDGE,  
PHILADELPHIA, *July 10, 1873.*

SAML. L. SMEDLEY, ESQ.,  
Chief Engineer and Surveyor:

MY DEAR SIR:—I am advised that the stoppage of my work by you, in constructing the abutments and retaining

walls on the line of Bridge street, west of Thirtieth street, required by my contract of July 11th, 1872, projects a bridge which is not according to the plan approved by Councils, by Ordinance of January 5th, 1870, and which my contract specially provides. I shall observe I am further advised, that unless Councils shall approve of the change, you have not the power to do this, and I propose to suspend work on Saturday, 12th inst., that the same may be submitted to them. I must decline to enter into any negotiation with the Pennsylvania Railroad Company, as to my change of plan. If the City desire a change, I will conform to it on making such compensation as such authorized change may require. I propose to stop now in consequence of your disallowance of the contract price for removing timber platform and piles on estimate No. 6, although such allowance was made in estimate No. 5. Inasmuch as you have deducted from the present estimate, money actually paid to me in the previous one, it renders it quite uncertain what views you entertain as engineer in the construction of said bridge. The work done by me as certified to by the engineer in charge, is as necessary as any work I am doing, and I cannot progress with my contract, if you entertain different views.

I am very respectfully,

your obedient servant,

JAMES F. KENNEDY,

*Contractor for Masonry, etc., Fairmount Bridge.*

PHILADA., July 10, 1873.

JAMES F. KENNEDY, ESQ.,

*Contractor for Masonry, Fairmount Bridge:*

DEAR SIR:—Your communication of this day relative to the construction of the abutments and retaining walls of Fairmount Bridge, at Bridge street, west of Thirtieth, and with regard to estimate No. 6, is received.

The City does not desire to make the changes to which you refer, and there is no action of City Councils required in the matter.

You will proceed with the work in accordance with the lines furnished you.

As to the estimates they will be made as the contract provides.

Very truly,  
SAML. L. SMEDLEY,  
*Chief Engineer and Surveyor.*

CONTRACTOR'S OFFICE, FAIRMOUNT BRIDGE,  
PHILADA., *July 11, 1873.*

MY DEAR SIR:—Upon receiving yours of the 10th I thought to call upon you, but believe it will be better that I should put my views in writing, so that for the present there may be no misapprehension as to the reason on which I suspend further work.

The remark in yours, that "the City does not desire to make the change to which you refer," is a surprise to me, and places me in a very false position. Nearly three months ago when I was proceeding to construct the abutments and retaining walls required by my contract, I received peremptory orders from Mr. Leuffer, the engineer in charge of the bridge, to discontinue the work. On several occasions since, he has told myself and several others connected with the work, that it was a settled fact that the western approach to the bridge would never be built in accordance with the original design. About a month ago Mr. Leuffer was requested to furnish lines for the abutment on Bridge street. After some hesitation he gave the requisite lines, and we commenced the excavation; that same evening he directed us to abandon the trench by order of the Chief Engineer. In my interviews with yourself you claimed the right to change the plan. Although I objected at the time, I was still uncertain about your power to make such a change, and it was not until the day before that on which I delivered you my letter of the 10th inst. that I was advised otherwise. You must therefore perceive that I have incurred considerable loss by this delay, which I desire to have adjusted.

You were also aware that I purchased a quarry from which to procure the backing of the mason work. This quarry in the opinion of competent engineers, builders and mechanics, has suitable stone for the purpose of my contract. Although the quarry was procured at great expense

to facilitate the progress of the work, you have deprived me of the use of this stone.

I propose to use all these stone that are suitable for the bridge, hereafter, when I resume the work, and if you insist otherwise I wish it stated in writing.

You are likewise aware that I have by your direction performed some extra work, and expended my own funds in the purchase of apparatus, for neither of which have I received any estimate. This must be adjusted before I resume. I must also decline to further proceed unless I have a corrected estimate restoring the items which were unwarrantably stricken from the last two estimates, against which I protested in my former communication.

I am very respectfully yours,

JAMES F. KENNEDY,

*Contractor for Masonry, etc., Fairmount Bridge.*

To SAMUEL L. SMEDLEY,

*Chief Engineer and Surveyor.*

PHILADA., *July 12, 1873.*

JAMES F. KENNEDY, ESQ.,

*Contractor for Masonry, Fairmount Bridge :*

DEAR SIR:—Having observed that in conformity with your note of the 10th inst. you have suspended operations upon the work of the Fairmount Bridge, this is to notify you, that if the usual force, or such number of men as shall be deemed by me a sufficient force, are not engaged upon the work on Wednesday morning next, I will as provided in the contract, report the same to Councils through his Honor the Mayor, for their action.

Very truly,

SAMUEL L. SMEDLEY,

*Chief Engineer and Surveyor.*

Articles of Agreement made this eleventh day of July, A. D. 1872, between the City of Philadelphia, of the first part, and James F. Kennedy, of the second part.

*Witnesseth:* That the party of the second part, for and in consideration of the payment of a sum not exceeding the sum of three hundred and seventy-two thousand and

two hundred (372,200) dollars to be paid to him at the times and in the manner hereinafter specified, by the said party of the first part, does hereby, for himself, his heirs, executors and administrators, covenant and agree to and with the party of the first part, well and truly to provide and furnish all the materials, and do and perform all the work and labor requisite to build, construct and finish, the abutments, piers and approaches to the bridge about to be erected over the river Schuylkill, at or near Fairmount, as authorized by a resolution of Councils, approved December 29th, 1871, entitled a "Resolution to provide for the construction of a new bridge over the Schuylkill river at Fairmount," and by other Ordinances making appropriations for said work.

And the said party of the second part covenants and agrees to provide and furnish all materials and to do all work included in the copy of the proposals hereto annexed and made a part hereof, under the general heads of graduation and masonry, at the prices and sums set opposite each item, which proposal was made by him and accepted by aforesaid resolution of December 29th, 1871. And the said party of the second part further covenants and agrees to furnish and provide all of said materials, and to do all of said work in exact and entire conformity with the plans on file in the office of the Chief Engineer and Surveyor of the City of Philadelphia, which was approved by Ordinance of Councils of January 5th, 1870, entitled "An Ordinance approving the plan for bridge over the Schuylkill river at Fairmount," and with other detailed drawings in said office, which plan and the said detailed drawings are made a part of this contract, and in exact and entire conformity with the specifications, a copy of which is annexed, and also made part hereof, unless the same is changed in accordance with the provisions of said specifications, and then in exact and entire conformity with said specifications so changed, as fully as if said plan, drawings and specifications changed or unchanged were fully and specifically described and set forth herein, and a special covenant herein inserted prescribing the performance of each and every item thereof by the said party of the second part, his heirs, executors and administrators.

And the party of the second part does hereby as afore-

said further covenant and agree that if he shall neglect or refuse to remove or take down any defective work or materials or construction, at the request of the Chief Engineer and Surveyor of said City, as hereinafter provided, or shall abandon this contract by ceasing to work thereunder, or prosecute the same with an insufficient force, and the Chief Engineer and Surveyor shall report to the Councils of said City that said party of the second part has neglected to take down or refused to take down and rebuild any defective work or construction, or remove any defective materials, or has abandoned this contract and ceased work thereunder, or is prosecuting the same with an insufficient number of workmen; which said report of the Chief Engineer and Surveyor to said Councils, shall be conclusive evidence of the facts stated therein upon all the parties hereto, and upon the sureties of the said party of the second part, then in every such case this contract may be rescinded by a resolution or Ordinance of said Councils; and the party of the second part, in case this contract shall be so rescinded for any such violation, shall not be paid for the materials furnished or the work done, or the amount which may be due him therefor when said contract is so rescinded, until all materials and work on said bridge herein provided for are furnished by the said City of Philadelphia, or any contractor, for the uncompleted work and unfurnished materials; and then in such case the said party of the second part shall only receive the value of the materials furnished and work done at the time this contract shall be rescinded, at the prices in the schedule in the copy of the proposals hereto annexed, which sum shall be ascertained by the Chief Engineer and Surveyor: *Provided*, That the entire work herein contracted for, if the contract is rescinded as aforesaid, shall not exceed in cost the prices or sum herein provided for, and if it shall exceed, then said excess shall be deducted from the amount found to be due to the said party of the second part by the Chief Engineer and Surveyor, as is hereinbefore provided: *And provided further*, That no such recession of the contract shall release the sureties of the said party of the second part in the bond of this date, but the said sureties shall still be liable for any excess of cost of said work over the price or sums herein provided for.

And in case said contract shall be so rescinded, it is understood and agreed by said party of the second part hereto, that the said City of Philadelphia may at once, without any notice to said party of the second part hereto, procure or employ any other party or parties the said City may deem proper, to finish the work and labor remaining unperformed under this contract, and furnish the material unsupplied at the time said contract is rescinded, at any price and upon any terms said City may deem proper; and in such case said party of the second part hereto, hereby for himself, his heirs, executors and administrators, covenants and agrees to and with the said City to pay any increased value to be incurred and paid thereon by said City, above the price set forth in the schedule and specifications hereto annexed.

And the said party of the second part agrees and covenants, that in the prosecution of said work, he will take down all work, and remove all materials not approved of by the Chief Engineer and Surveyor of said City, and replace the same to the satisfaction of said officer, at the expense of the said party of the second part, and that he will observe the directions of the said Engineer and Surveyor in the prosecution of said work; and he further covenants and agrees, that the decision of said officer shall be final and conclusive in all matters of dispute which may arise between the parties to this agreement, relative and touching the same. And the party of the second part does further covenant and agree that he will prosecute said work with dispatch, and complete the same within two and a-half years from the date hereof.

And the party of the second part does further covenant and agree as aforesaid, that during the construction of the work herein provided for, and until the same shall be entirely completed, that he will observe and comply with all and singular the laws of this Commonwealth now made, or to be made, in regard to the construction of bridges, and shall and will keep harmless and indemnified the party of the first part from all suits, accidents, costs and damages, by reason of any cause arising out of neglect thereof by the party of the second part, his agents, servants, or any of them; it being expressly understood that all and every damage, cost and loss, however arising and

happening, by reason of anything done or omitted in the construction herein provided for, by the party of the second part, his agents or servants, or any of them, shall be borne, paid and suffered by the party of the second part solely and wholly, except such damages as result from and are the direct consequence of the construction of said bridge itself, as authorized by the City of Philadelphia, independently of the acts or doings of said party of the second part under this contract.

And the party of the second part does further covenant and agree, by these presents, to and with the said city, that no claim shall be made by him for any delay, inconvenience or suspension of work, or hindrance to the furnishing of materials, which may arise or be caused by reason of any litigation or legal or equitable suit, action or proceeding whatever, or judgment, order, or decree or decision made therein, to be instituted by any person or persons averring or claiming any infringement of any right or injury to his, her or their estate, real or personal, arising from the construction of said bridge, but the time for the completion of said construction shall in such case be considered as extended during the time for which there shall be such delay arising from the causes aforesaid. And in order that the extent of such delay may be ascertained, it is understood and agreed by said party of the second part, that it shall embrace the period commencing with the time when the City Solicitor shall notify them of the commencement of such proceedings, and any subsequent notice received from him of its termination, and that they may proceed; said party of the second part hereby agreeing to notify forthwith the City Solicitor of any writ, order or decree served upon, or legal or equitable proceeding whatever, commenced against him touching or concerning the erection of said bridge, whether said City is made a party thereto or not; and in the event of a final injunction, order, judgment or decree being awarded against the City of Philadelphia, or the party of the second part hereto, prohibiting perpetually the construction of said bridge, it is hereby covenanted and agreed that this contract shall be deemed and taken as cancelled and ended, and as though the same had never been made, and in such case the said party of the second part shall have no claim upon the party of the first part for

any damages or loss whatever, resulting to or to be incurred by him by reason of the termination thereby of the building of said bridge, or of this contract, except for materials actually furnished and the labor done, at the time of the erection of said bridge, and the work said party of the second party thereon was stopped and suspended by reason of said proceedings, the said work to be paid for according to the price set opposite the items in the schedule contained in copy of proposals hereto annexed. It is hereby understood and agreed that if the said party of the second part is delayed in the prosecution of the work herein agreed to be done, by other contractors not prosecuting their work with sufficient dispatch to enable him to proceed, then in every such case the party of the first part shall be relieved from all claims for loss by reason of said delay, which the said party of the second part might otherwise have, and the time of the completion of said contract shall be extended by the addition of the period of such delay.

And the said party of the first part covenants and agrees to pay to the said party of the second part, upon the completion of the work and the furnishing of all the materials herein contracted for, to the entire satisfaction of the aforesaid Chief Engineer and Surveyor, a sum not exceeding the sum of three hundred and seventy-two thousand and two hundred (372,200) dollars, to be determined by the said Chief Engineer and Surveyor by and in accordance with the schedule of prices contained in the copy of proposals hereto annexed. The payments to be made in warrants drawn by the Chief Commissioner of Highways upon the City Treasurer, which warrants shall be paid in cash or in bonds of the City of Philadelphia, at the discretion of the Mayor. The said warrants shall be drawn monthly, and shall each be for a sum fifteen per cent. less than the monthly estimate made by the Chief Engineer and Surveyor, of the amount due the said party of the second part for work done and materials furnished during the month. The said estimate to be made in accordance with the prices in copy of proposals hereto annexed. The said Chief Engineer and Surveyor shall make out and deliver to the said party of the second part monthly bills and estimates of the materials furnished and work done, deducting therefrom the required fifteen per cent., duplicates of which bills and esti-

mates shall be delivered to the Chief Commissioner of Highways.

The aforesaid deduction of fifteen per cent. from the cost of the entire work retained as aforesaid from the monthly estimates, shall be paid in manner aforesaid, upon the certificate of the said Chief Engineer and Surveyor, that this contract has been faithfully performed by the said party of the second part. *Provided, however,* That neither said certificate nor the final estimate shall be so delivered until the said party of the second part shall execute and deliver to the City of Philadelphia a release under seal, to be approved by the City Solicitor, of all claims and demands whatsoever arising out of or by reason of the construction herein provided for, or for which said City may be liable.

*In witness whereof,* The party of the first part has caused the corporate seal of the City of Philadelphia to be hereto affixed, attested by the signature of the Mayor thereof, and the party of the second part has hereunto set his hand and seal the day and year first above written.

# SPECIFICATION FOR THE CONSTRUCTION OF A BRIDGE OVER THE RIVER SCHUYLKILL AT FAIRMOUNT.

## *Description.*

The bridge and approaches will extend from the intersection of Twenty-fifth street with Spring Garden street, in the Fifteenth Ward, to the crossing of Bridge street and

Thirty-second street, in the Twenty-fourth Ward, a distance of two thousand seven hundred and thirty feet (2,730 feet). It will be arranged for two roadways, for which purpose the bridge itself will be a combined "deck" and "through" bridge. The upper roadway, on the eastern approach, will commence at Twenty-fifth street, opposite Spring Garden street, and with an ascending grade of three and two hundred and thirty-four thousandths feet (3.234 feet) per hundred, along the side of the reservoir, reach an elevation of thirty-two feet (32 feet) above Callowhill street, near the eastern entrance to Fairmount Park, from thence to the deck of bridge over the river, it will be carried by a bridge over Callowhill street, and a series of columns, all of wrought iron. The abutments and piers at Callowhill street to be stone, of first-class masonry. There will be two towers at each end of bridge, erected upon the present abutments, which will also be constructed of first-class masonry. From the western end of bridge to Thirtieth street, there will be a colonnade similar to that upon the east side, with two separating towers; that at Thirtieth street to be an abutment for a bridge over Thirtieth street, with a clear span of eighty feet (80 feet). From the western line of Thirtieth street, upon the line of Bridge street, as now open and in use, for a distance of one hundred and forty feet (140 feet), the upper roadway will be sustained by retaining walls, terminating at each end with abutments; that at Thirtieth street for the eighty feet (80 feet) span bridge over the street, and that at west end for the plate girder spans, of which there will be three (3), of forty-six and five-tenths feet (46.5 feet) each on centre line, extending to the tracks of the Pennsylvania Railroad. There will be three (3) spans of plate girders over the Pennsylvania Railroad, supported by an abutment, one (1) pier and two (2) rows of wrought-iron columns, each span to be forty-five feet (45 feet) in the clear. From the Pennsylvania Railroad to Thirty-second street, the grade of street, as now used, will be changed so as to descend with a regular gradient from Thirty-second street to the Pennsylvania Railroad abutment, at an elevation of twenty-four and eight-tenths feet (24.8 feet) above the rails. The lower roadway will commence at the angle in Callowhill street, east of the bridge, upon the level of street as now in use, and, passing under

the colonnade, will cross the river on the lower chords, and under the western colonnade, upon a level approximating to the present roadway, to Thirtieth street, where travel must diverge to the right or left. The width of upper roadway will be fifty feet (50 feet), with a carriageway of thirty-two feet (32 feet), and an eight feet (8 feet) footway upon each side. The lower roadway will be twenty-seven feet (27 feet) between curbs, with footways varying from fifteen and one-half feet ( $15\frac{1}{2}$  feet) to twelve feet (12 feet) in width.

### *Foundations.*

All foundations, whether of abutments, piers, retaining walls or the columns for colonnade, shall be upon solid rock, unless otherwise directed by the Chief Engineer and Surveyor, and whenever they may be located upon or alongside a public thoroughfare, they shall be laid in such a manner as not to unnecessarily obstruct the travel, and when directed, the foundations for the towers and columns of colonnade shall be laid in a curbed pit or shaft, so as to confine the opening therefor to the smallest limit.

### *Foundation Masonry.*

The masonry of all foundations shall be constructed with stone of approved quality and shape, the general size of which shall not be less than eight cubic feet. They shall be laid with close joints, so disposed as to header and stretcher that permanent work may be secured. All mortar used below the water level shall be made with hydraulic lime, and above that, level to surface, with wood burned lime, mixed with bar sand or clean screened gravel, the proportions to be approved by the Engineer. The wall to be laid dry and grouted. Whenever the suspension cables of the present bridge may lie within the line of any foundation, they shall be built around and left free, to be removed when required. The foundations of towers at west end of bridge will be upon the back of the abutments now standing, a portion of which will be taken down eight feet (8 feet) in height and rebuilt, those at the east ends will be supported in part by buttresses outside of the ends of the abutments as now standing, to obtain the required width. The lower buttress will, for its greater height, be exposed to

view, and must therefore, in character of work, correspond with the masonry in the old abutments now standing, but that on the west will be covered and be as foundation work, and in all cases where old work shall be taken down to be replaced, the face work shall in character correspond. If deemed necessary, a new foundation shall be prepared for the western end of main bridge, by removing as much of the western abutment of the present suspension bridge as may be necessary, as well as its platform and piling, and sinking, by the pneumatic process, two (2) cast-iron cylinders, with an outer diameter of six feet (6 feet), to the solid rock. The centre of each column will be under the end post of outer truss of bridge — they will be cast in sections of about twelve feet (12 feet), with a thickness of one inch and one-quarter ( $1\frac{1}{4}$  inches), having interior flanches two inches and three-quarter ( $2\frac{3}{4}$  inches) thick, which shall be drilled for forty-two (42) bolts, one inch (1 inch) in diameter, by which the sections will be secured together. The bottom casting will be made with but one (1) flanch, the lower end to have a chisel edge. The ends of each section will be accurately faced to a plane perpendicular to the axis of cylinder, so as to make an absolutely air-tight joint. The metal to be hard fine-grained gray cast iron, and the cylinders must be straight, even in thickness, sound and free from honey-comb or other defects — the bolts at each joint to be of the best quality wrought iron with hexagonal nuts. Each cylinder will be filled with masonry, laid dry, with level beds and close joints, and well grouted with hydraulic cement. In setting these cylinders, which will only be done if upon future examination, they may be found necessary, only so much of the masonry, platform and piling of the present abutment shall be removed, as may be necessary to accurately locate them. A heavy cast-iron cap will set upon the interior masonry, free from the cylinder, to receive the bearing of the end post of bridge tress, and each cylinder will be enclosed in the abutment masonry replaced, with projecting and covering buttresses on face of abutment; similar in character of work to the old masonry.

*Abutment and Pier Masonry.*

The abutments, piers and towers between and including

the northerly side of Callowhill street and the westerly side of Thirtieth street, will be built of granite or other acceptable stone, with beds, builds and joints accurately squared and smoothly cut, with rock face showing a square, clean-cut draft of three-quarters of an inch ( $\frac{3}{4}$  inch) wide on each joint, the draft of quoins to be one inch (1 inch) wide, the bevel, belting courses, arch stone and cornice to be smooth-cut on face. The abutments at the Pennsylvania Railroad, and at the west end of the retaining wall on Bridge street, will be of the same material, laid in the same manner as described for the towers, &c., but without a draft on face, *i. e.*, with pitched ashler. The piers to support the columns under the plate girder spans shall, above ground, be built of the same material in pitched ashler, with Flemish bond, and, in all cases, through headers. They shall have a cut coping ten inches (10 inches) thick, with single stones running across the wall under each column. All this masonry will be laid on face and be well grouted in the interior with hydraulic cement mortar. In all this masonry, the arrangement of headers and stretchers shall be satisfactory to the Engineer.

### *Retaining Walls.*

The retaining walls on the eastern approach, being on both sides of the roadway from Twenty-fifth street to the abutment at Callowhill street, and on the westward approach westward of Thirtieth street, will be built of rough coursed masonry, with no tooling on face, but beds, builds and joints squared, the stone to be of approved quality, in general dimensions containing not less than four ( $\pm$ ) cubic feet, headers shall be placed on face back and inside of wall on each course, at distances not exceeding ten feet (10 feet) apart for each, and the stone shall in all cases be laid on its natural bed, and have a greater bed than build. The wall upon Biddle street and Callowhill street will have buttresses five feet (5 feet) wide, at distances apart of fifty feet (50 feet), with a batir of two (2) inches to the foot. The face of wall shall batir three-quarters ( $\frac{3}{4}$ ) of an inch to one (1) foot, and be finished with cement pointing tooled in. The coping will be neatly cut to shape as on drawings, in lengths not less than three feet (3 feet), with an accurate width of two and one-half feet ( $2\frac{1}{2}$  feet). On the Biddle

street and Callowhill street wall, and the walls on the western approach, it will be thirteen inches (13 inches) thick on face, and on the north side of east approach, eight inches (8 inches) thick. All the old masonry about the bridge, that may remain, shall be carefully pointed, as before specified. The dimensions as marked on drawings must be strictly adhered to, unless otherwise directed by the Engineer. The pedestals for lamps upon the approach, walls, towers and abutments, are to be composed of the same material of which the towers, &c., are built, and shall be neatly cut to design, as shown on drawings.

### *Colonnade Approaches.*

Colonnade approaches from the easterly side of Callowhill street, and over the same, to easterly end of bridge, and from westerly end of bridge to Thirtieth street, will be constructed upon wrought-iron columns, which will stand upon a cast-iron seat, anchored to a heavy capstone set upon the column foundations. There will be two (2) columns as the lower support, which will at the base be fitted with a cast-iron pedestal, and with a Doric base and capital, at an elevation of fifteen feet (15 feet) from upper roadway, will be a heavy cast-iron plate covering these two columns, to form a seat for a single column, which shall extend to a height of twelve feet and three-quarters ( $12\frac{3}{4}$  feet); this plate will form the lower members of a Doric entablature, from which will spring the cast-iron arching between the columns. These columns will be tied transversely by a wrought-iron lattice girder five feet (5 feet) deep, as shown on drawings, the top chord of which will extend outside the columns on each side, as cantilevers to sustain the footways. Upon the under side of the transverse girder will be a wrought-iron bracket, extending from the middle of girder in an arch to the top of the entablature on columns, under the footway cantilevers will also be brackets secured to the outside of columns. These columns will be tied longitudinally with a light lattice girder eighteen inches (18 inches) deep to which will be secured the cast-iron arching and cornice, as shown on drawings. Upon these cross-girders will be set the roadway beams, three feet (3 feet) from centre to centre, which shall consist of nine inch (9 inch) wrought-iron  $\text{I}$  beams,

weighing from seventy (70) to ninety (90) pounds per yard. For the footway, and resting upon and secured to cantilever, as shown on drawings, there will be a plate girder twenty six and one-half inches ( $26\frac{1}{2}$  inches) deep on the outside, to which will be fastened the balustrade, and the upper members of the cornice, and a nine inch (9 inch) and twelve inch (12 inch)  $\Pi$  rolled beam, resting upon cast iron raising blocks. Upon these beams, and secured to them by rivets, will be placed buckle plates of wrought iron, with their cross joints covered by a light  $\Gamma$  iron, all of which joints must be made water tight. The balustrade will be in design as shown on drawings, of cast iron with cast iron pedestals at regular distances apart, some of which will be constructed to support posts and lanterns for gas lights. Between the towers, at ends of bridge and on west approach, the road will be carried on five feet (5 feet) lattice beams, as between columns. The crossing of Callowhill street will be by a series of lattice girders, upon stone piers and an abutment, the span over the street and facing it, to have a facade as exhibited on plans.

### *Bridge Superstructure.*

The river bridge must have trusses with braces extending across two (2) panels, and will be three hundred and forty-eight feet (348 feet) from centre to centre of end posts, and the height, from centre of lower to centre of top chord, will be thirty-four feet and eight-tenths (34.8 feet). The bridge will be fifty feet (50 feet) from centre to centre of outside footway railings. The two outer trusses shall be thirty-three feet and one-half ( $33\frac{1}{2}$  feet) from centre to centre, and the sustaining posts on each truss must not be wider than four feet (4 feet) from out to out. The trusses and floor beams must be of wrought iron, proportioned for a load of seventy-five (75) pounds per square foot on each roadway, or one hundred and fifty (150) pounds per square foot, including the footways and exclusive of its own weight, with no compressive strain exceeding four (4) tons, or tensile strain, five (5) tons, per square inch of section. The floor will be of treated timber, the upper line of flooring to be so laid that it may be caulked and made water-tight, the curb to be faced with iron. The footways will be

of yellow pine, tongued and grooved, with a planed surface. The upper and lower balustrade, as well as the general ornamentation, must correspond in design to that shown on drawings for approach colonnade, with lamp-stands and lanterns and provisions for lighting the bridge, as shown on general plan, the design of lamps and stands to be approved by the Chief Engineer and Surveyor. All iron work, whether wrought or cast, must be primed with brown zinc paint, before delivery, and, when completed, the entire structure must be painted with three coats of such material and color as the Engineer may direct. The towers, cables and roadway of the suspension bridge will be taken down and removed at such time as the Chief Engineer and Surveyor may direct, a price for the same to be given in the schedule for superstructure, as also an amount that will be allowed the City for the materials of which it is composed. Bridgewater street will be crossed by a truss bridge, to be eighty-four feet ( $8\frac{1}{2}$  feet) from centre to centre of end posts. There will be two (2) trusses ten feet and one-half ( $10\frac{1}{2}$  feet) from centre of lower to centre of top chord, with eight (8) panels, to be constructed of wrought iron for chords, posts and ties. The trusses will be thirty-three feet and one-half ( $33\frac{1}{2}$  feet) from centre to centre, with a seventeen inch (17 inch) plate girder resting upon them at each panel, upon which the roadway will be constructed as before described—they will extend seven feet and three-fourths ( $7\frac{3}{4}$  feet) beyond the trusses on each side, to carry the footways. These trusses must be constructed to bear a distributed load of one hundred and eighty (180) tons on each, exclusive of their own weight, and be proportioned so that, when fully loaded, no compressive strain shall exceed four (4) tons, or tensile strain exceed five (5) tons per square inch of section. Lateral bracing inserted must not interfere with the general outline of the under side of colonnade.

#### *Pennsylvania Railroad Crossing.*

Plate girder spans will extend from the end of retaining wall west of Thirtieth street to the western limit of property belonging to the Pennsylvania Railroad Company. These spans will be six (6) in number, in series of three (3) each, separated by a stone pier, the western series to be

over and across the tracks of the railroad as now used. The clear span of each will be forty-five feet (45 feet) on centre line, composed of four (4) plate girders thirty-two inches (32 inches) deep, supported by a wrought iron column under each, standing upon stone piers before described, the columns to be tied at top with a fifteen inch (15 inch) rolled  $\Xi$  beam, and finished with cast iron capital and base. They will stand upon cast iron seats secured to coping of piers. The roadway will be framed as before noted, and upon floor beams of same dimensions. The outside girder will have a cast iron cornice, corresponding in design to cornice on colonnade approach, and as shown on drawings. From the west side of Thirtieth street to the west side of Pennsylvania Railroad Company's ground, the footway railing will be of wrought iron as per drawing.

*Paving, Curbing, etc.*

The roadway, from Twenty-fifth street to the crossing of Callowhill street, shall be paved with granite blocks, with a cut stone curb on each side, and will have a wrought iron railing on the outer retaining wall, similar in design to that west of Thirtieth street. The material on which this roadway will be laid must be levelled off and rolled at an elevation of two feet (2 feet) below curb at gutter, with a rise of one (1) in thirty-two (32) to middle of road. The curbs shall be neatly dressed with a top width of five inches (5 inches), a face of at least twelve inches (12 inches), a depth of not less than twenty-six inches (26 inches), and in length not less than four feet (4 feet). Upon the prepared bed and between curbs, will be spread a layer of broken stone or furnace slag, in sizes not greater than will pass through a three inch (3 inch) ring, with a depth of eight inches (8 inches), and rolled to a uniform thickness. Upon this will be spread with an even thickness four inches (4 inches) depth of clean gravel, upon and in which will be set stone blocks of acceptable quality, with sizes from six to eight inches (6 to 8 inches) in length, six to six and a half inches (6 to  $6\frac{1}{2}$  inches) in depth, and from three to three and a half inches ( $3$  to  $3\frac{1}{2}$  inches) wide. They shall be laid with three-quarter inch ( $\frac{3}{4}$  inch) side and close end joints to a slope of one (1) in thirty-two (32), the lines of stone to

be straight and of regular width across the road, and when rammed shall present a smooth and even surface, with a curb six inches (6 inches) face. The footways will be levelled off at six inches (6 inches) below curb height, upon which shall be spread clean gravel four inches (4 inches) deep, on which will lay flagging at least two inches (2 inches) in thickness, carefully fitted between curb and coping or foot of wall, at such slope as the Engineer may direct. The roadway upon the colonnade and bridge approaches will rest upon the buckle plates described, which shall first be covered with a hydraulic lime concrete, having one inch (1 inch) rise from curb to centre of road, and on the footways sloping from balustrade to curb. Upon this will be spread clean gravel, with a thickness of three inches (3 inches) under the curb line, sloping one (1) in thirty-two (32) to the middle. The curb will be set in this gravel and will be of granite, five inches (5 inches) wide and twelve inches (12 inches) deep, with a square bed, and in lengths not less than four feet (4 feet). Between curbs and upon the gravel will be laid a wooden pavement of either the Nicholson or other approved plan, as the Engineer may direct. All timber used for this purpose shall have been treated by such preservative process as shall be acceptable to the Engineer. The footways will be laid with flagging as described. Between the Pennsylvania Railroad and Thirty-second street, the paving stones and curbing now laid there, will be removed and carefully preserved, to be replaced when the grade of street is changed, as shown on general plan, which change will be by embankment of approved material. The lower roadway, excepting on the River Bridge, will be curbed and paved, as described for the approach between Twenty-fifth street and Callowhill street. Provisions for the proper drainage of the upper roadway will be made at each tower, pier and abutment, as shown on drawings.

### *General Remarks.*

All materials provided, shall be of the best description, subject to the approval of the Chief Engineer and Surveyor, or, in his absence, by the principal assistant engineer, or the engineer in charge. And if any materials, which the

Engineer may deem of inferior quality or unfitted to be used, are brought to the work, the same shall be forthwith removed; and if the directions of the Engineer are not complied with within twenty-four (24) hours after written notice, he shall be at liberty to remove the same, at the expense of the contractor. And all wrought iron used shall be of the best quality, with an elastic limit of not less than twenty thousand pounds (20,000 lbs) to the square inch of section. In prosecuting this work, it is very important that the travel over the present suspension bridge should not be obstructed, but be continued until the lower roadway of new bridge is ready to receive it, requiring, therefore, the erection of the new bridge before the old one is removed. The suspension bridge must not be closed for ordinary travel, unless by written directions of the Chief Engineer and Surveyor. In conducting the work of graduation and masonry along the side slope of the Fairmount reservoir, especial care will be required, and, if necessary, the excavation for the upper retaining wall must be taken out in short sections, and such other precautions taken as will prevent any liability of slips. The City reserves the privilege to vary, extend or diminish the quantities of work within reasonable limits, during its progress, without vitiating the contract. No claim for extra work will be allowed, unless the same shall be done in pursuance of an order from the Chief Engineer and Surveyor, nor shall any part of the works be altered by the contractor from that shown on drawings, or described in the specification, without the express sanction of the Chief Engineer and Surveyor. The drawings and specifications are intended to be explanatory of each other, but should any discrepancy appear, or any misunderstanding arise as to the import of anything contained in either the drawings or specifications, the explanation of the Chief Engineer and Surveyor shall be considered final and binding. The dimensions written on the drawings shall in all cases be taken in preference to the scale, and the wording of the specification in preference to the written dimensions. The decision of the Chief Engineer and Surveyor to be final and conclusive in any dispute which may arise between the contractor and the City of Philadelphia relative to and touching the work herein specified. The drawings and specifications are intended to

include whatever may be requisite to render the work complete, but, should anything be accidentally omitted, which might fairly be implied as included in the contract, the same shall be executed at the schedule price. The time fixed for the completion of this work is \_\_\_\_\_ months from the date of the Chief Engineer and Surveyor's order to commence. And the contractor shall pay, as liquidated damages, fifty dollars (\$50) for every day that any part of the said work, by his default, shall remain unfinished after that time. Estimates will be made monthly during the progress of the work by the Chief engineer and Surveyor, of the comparative value of the work done and materials delivered. All masonry will be estimated at twenty-five (25) cubic feet to a perch, and no iron work, whether cast or wrought, will be estimated at greater weight than is due the dimensions marked on drawing. Payments will be made by the Chief Commissioner of Highways, upon estimates of the Chief Engineer and Surveyor, in warrants on the City Treasurer, payable either in cash or in bonds of the City of Philadelphia, at the discretion of the Mayor, said payments to be fifteen (15) per cent. less than the estimated value of the work done, until the completion of the contract to the satisfaction and acceptance of the Chief Engineer and Surveyor, when the balance due shall be paid, subject to all legal and equitable deductions.

MAYOR'S OFFICE, OF THE  
CITY OF PHILADELPHIA, *July 22, 1873.*

To the Common Council  
of the City of Philadelphia:

GENTLEMEN:—I herewith transmit a communication from J. D. Kurtz, Lieut. Col. of Engineers, together with other communications relative to the harbor lines of the City of Philadelphia.

This is an important matter to the interests of the City, and should receive your prompt consideration.

I am very respectfully,  
WM. S. STOKLEY,  
*Mayor.*

U. S. ENGINEER'S OFFICE,  
PHILADELPHIA, PA., *July 11, 1873.*

HON. WM. S. STOKLEY,  
Mayor of Philadelphia:

SIR:—I have the honor to transmit to you herewith, in execution of the instructions of the Chief of Engineers to me, of which a copy is also enclosed, a copy of so much of the report of the Board of Engineer officers of March 24th, 1873, as relates to the harbor lines of Philadelphia; and I request that the subject may be brought by you to the consideration of the Councils of the City, as contemplated by the same instructions.

I shall be ready to take such further steps in the matter as may be found necessary and expedient.

Very respectfully,  
J. D. KURTZ,

U. S. ENGINEER'S OFFICE,  
PHILADELPHIA, 28 *May*, 1873.

BRIG. GEN. A. A. HUMPHREYS,

Chief of Engineers, U. S. Army, Washington, D. C. :

GENERAL :—The Board of Engineers, constituted by special orders No. 61, War Department, A. G. O., March 24th, 1873, was convened at the U. S. Engineer's Office, Philadelphia, on the 23d April, 1873, and at that meeting, and subsequent ones, considered the subjects committed to them by your instructions of March 26th, 1873, and April 15th, 1873, viz. :

\* \* \* \* \*

The imperfect and uncertain condition of the Port Wardens' line of the port of Philadelphia and the adjacent waters.

And the board has the honor to report as follows :

\* \* \* \* \*

The board now proceeds to report upon the second subject committed to them for consideration ; the condition of the Port Wardens' or harbor lines of the port of Philadelphia and the adjacent waters.

Several charts of the water front of Philadelphia and its vicinity, were laid before the board by Mr. S. L. Smedley, Chief Engineer and Surveyor of the City, and the board obtained much important and interesting information during their meetings from Mr. Smedley, as well as from the members of the Joint Committee of Councils, with whom there was a free and pleasant conference on this subject during our sessions.

The subject of the regulation of these harbor lines is a very important one, and one that must necessarily involve much time, labor and investigation. Conflicting interests are to be reconciled, the general good harmonized with individual interests, vested rights must be respected, and es-

pecially it should be made apparent that ultimate and permanent, not temporary and changing interests should control the determination of such questions.

Several great commercial cities of the country, New York, Boston and Portland, have recognized the importance of an authoritative and intelligent determination of this subject, and have invited the counsel and authority of the general government, and of its skilled officers of disinterested position and high standing, to aid them in the solution of the questions in their cases.

The results of the experience gained in these several instances is available for Philadelphia, whose task will be easier in consequence, and whose commercial interests are now increasing, and becoming so active as to make the subject both an important and an urgent one for her consideration.

The board finds from their examination of the maps of the Delaware and Schuylkill rivers along the lines of Philadelphia, and from those of Marcus Hook, New Castle and Chester, that the Wardens' line have, in various instances, been so located as to affect injuriously the regimen and navigable condition of the river, and the board has been brought to the decided opinion that the convenience of the commerce, as well as the improvement and maintenance of the navigation of the rivers, imperatively demand, at this time, a thorough examination by the proper authority of the questions involved, and the establishment of pier and bulkhead lines by the same authority for the City of Philadelphia, and that the regulation of such lines can no longer be left to interested parties, controlled only, as too often happens, by various authorities, which are possessed of no special knowledge of the matters involved, or of their importance.

The board is likewise of the opinion that the general government should undertake the solution of this problem, because it is the custodian of the navigable waters of the country, and because it has been and is called upon to devote large sums to the improvement and maintenance of navigation in this section.

The drawings of the bridge in process of construction over the Schuylkill, near the foot of South street, were ex-

amined, as well as the maps of the river. It was decided that the draw-pier has been improperly located for the convenience of navigation, inasmuch as its continuance in its present position will render essential the disbursement of a considerable sum of money to preserve the navigation of the river unimpaired.

The maps of the locality of the proposed Petty's Island Bridge were examined, as also the laws relating thereto, no drawings of the bridge itself being before the board. Col. Kurtz stated that he had made application to those interested, for information relating to the navigation of this part of the river, but had not yet received it.

It was decided to recommend that the construction of the bridge should not be begun until the Secretary of War had approved the location of its piers and other arrangements.

In the case of the Schuylkill, it was considered that the water basin of the river being terminated by the Fairmount dam, a sufficient area should be carefully preserved, having reference to the influence of its waters on the Delaware, and also, specially to the preservation of a good depth of water at the passage from its mouth to the Delaware, where the United States is now effecting an important improvement, which will add to the value of the Schuylkill in its great commercial importance as a principal shipping place for coal oil and grain.

In the case of the Delaware, the subject of the proposed widening of Delaware avenue to afford a continuous freight railroad track along its length, and the consequent proposed extension of the shipping piers and the Wardens' line out into the river channel were considered, particularly the injurious effect that must follow such an extension along the narrow part of the river opposite Smith's and Windmill Islands, where it is apparent that no encroachment should be permitted on the waterway, or at least none without an equivalent widening by the removal of the island, or a due portion of it, from the river.

The board recommends that the whole subject be brought by the United States to the attention of the municipal authorities of Philadelphia; that the course pursued by the seaport cities of New York, Boston and Portland, be pointed out, with the suggestions that the authorities of the City inform themselves as to the particulars of the proceedings

in these cases, and that they base upon them a like course of procedure for the wants of Philadelphia.

SIR:—You are authorized and directed to communicate to the Mayor and Councils of Philadelphia, a copy of so much of the report of the Board of Engineer Officers of March 24th, 1873, as relates to the harbor lines of that City, with the suggestion that they represent to the Governor of Pennsylvania the desirableness of an act of the Legislature for fixing these lines, and of making such an appropriation as may be necessary for doing so, with a proviso that the Governor request the President of the United States to appoint a board of three officers of Engineers for the purpose, as has been done in other similar cases, and, with the view of being prepared, to furnish the Governor with the requisite information, you will please proceed to ascertain what amount of money will be necessary to enable a board, of which you are to be a member, to make the necessary surveys, examinations, plans and maps for fixing these harbor lines.

By command of Brig. Gen. Humphreys.

Very respectfully,

Your obedient servant,

RESOLUTION

Amendatory to resolution relative to opening of Delaware avenue, approved June 24th, 1873.

*Resolved by the Select and Common Councils of the City of Philadelphia,* That the centre line of railroad tracks, as specified in resolution approved June 24th, 1873, and authorized to be laid on Delaware avenue, by and at the expense of the Pennsylvania Railroad Company, be and the same shall be moved westward three feet nine inches, to give an equal width of roadway on each side thereof.

## APPENDIX No. 5.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the communication from the Mayor and Chief Engineer and Surveyor, with the accompanying documents relative to the suspension of work on masonry of Fairmount Bridge, have in conjunction with Robert N. Willson, Assistant City Solicitor, given the subject careful consideration. The statements of the Chief Engineer and Surveyor and of Jas. F. Kennedy, contractor for the masonry, have been heard; those of the latter not varying materially from those contained in his communication. His first complaint refers to a solid retaining wall of 140 feet length on the west side of Thirtieth street, the property on both sides of which is owned and used by the Pennsylvania Railroad Company. Such an obstruction destroys the use of this ground for railroad purposes.

A proposition for the substitution of iron plate girders supported on columns, which would correspond in design with the other portions of the bridge, such alteration being of no advantage to the City, was submitted to Mr. Kennedy, with the distinct understanding that the change would not be made, unless he could make satisfactory terms with the Pennsylvania Railroad Company relative thereto.

Pending his negotiations with them, a large amount of work was in readiness for him on other portions of the structure, which should have been pushed forward with greater rapidity, and still remains undone on account of the tardiness of the contractor in getting his supplies.

The claim which he makes for removing timber platform and piles from the shaft, which is 14 feet by 17 feet square, amounting to \$7,000 extra for a single shaft, we do not think is warranted by the contract. There is in the proposal an item of \$32 per cubic foot, for removing timber platform, and another of \$30 each, for removing piles; but the plan and specifications show that this has reference only to a foundation for the river superstructure where the contracted space for operations warrants a large compensation.

We coincide with the decision made by the Chief Engineer, and by that decision the contractor binds himself by his contract to abide.

The contractor states that he has purchased a quarry, from which he proposes to obtain stone for the work. The contract says, that "all materials provided, shall be of the best description, subject to the approval of the Chief Engineer and Surveyor." The stone alluded to, is reported by the engineer to be of very inferior quality, notwithstanding which the contractor shows a determination to force it on the City, and manifests in his communication, acts and statements, a disposition to use stone and other material of inferior quality and unfitted for first-class work.

The contractor has presented a bill for machinery, &c., for prosecuting extra tests, but the Chief Engineer reports this unwarranted, because they were used almost altogether for other work, such as exhausting the water from excavations belonging to the contract.

From the evidence on both sides, we are of the opinion that there has not been anything done to justify the suspension of the work.

The contractor states that if the demands which he has made are acceded to, he will again suspend operations whenever he is dissatisfied with his estimates, and that he cannot get along with his contract under those who are in charge.

Notwithstanding what he has written relative to his last estimate, he has accepted it before making his complaints, and has drawn the money thereon. We are forced to the conclusion that Mr. Kennedy has suspended work deliberately, and is not disposed to fulfil his contract.

We are advised by the City Solicitor that under the terms of the contract referred to, and in view of the report of the Chief Engineer and Surveyor, the City Councils have the right to rescind the said contract by Ordinance or resolution, and may at once procure or employ any other party or parties that the said City may deem proper to finish the work and labor remaining unperformed under the contract, and the original contractor is bound to pay any increased value to be incurred and paid by the City above the price set forth in the original schedule and specifications.

Your Committee recommend that this course shall be

pursued, and recommend the adoption of the annexed resolution.

## COPIES OF CORRESPONDENCE RELATIVE TO FAIRMOUNT BRIDGE CONTRACT.

CONTRACTOR'S OFFICE, FAIRMOUNT BRIDGE,  
 PHILADELPHIA, *July 10, 1873.*

SAML. L. SMEDLEY, ESQ.,

Chief Engineer and Surveyor :

MY DEAR SIR:—I am advised that the stoppage of my work by you in constructing the abutments and retaining walls on the line of Bridge street, west of Thirtieth street, required by my contract of July 11th, 1872, projects a bridge which is not according to the plan approved by Councils by Ordinance, January 5th, 1870, and which my contract specially provides. I shall observe I am further advised that unless Councils shall approve of the change, you have not the power to do this, and I propose to suspend the work on Saturday, 12th inst., that the same may be submitted to them. I must decline to enter into any negotiation with the Pennsylvania Railroad Company, as to any change of plan. If the City desires a change, I will conform to it, on making such compensation as such authorized change may require. I propose to stop now in consequence of your disallowance of the contract price for removing timber platform and piles in estimate No. 6, although such allowance was made in estimate No. 5. Inasmuch as you have deducted from the present estimate, money actually paid to me in the previous one, it renders it quite uncertain what views you entertain as Engineer in the construction of said bridge. The work done by me, as certified by the Engineer in charge, is as necessary as

any work I am doing, and I cannot progress with my contract, if you entertain different views.

I am, very respectfully,  
Your obedient servant,  
JAMES F. KENNEDY,  
*Contractor for Masonry, etc., Fairmount Bridge.*

July 10, 1873.

JAMES F. KENNEDY, ESQ.,

Contractor for Masonry, Fairmount Bridge :

DEAR SIR:—Your communication of this day relative to the construction of the abutments and retaining walls at Fairmount Bridge, at Bridge west of Thirtieth street, and with regard to estimate No. 6. is received.

The City does not desire to make the changes to which you refer, and there is no action of City Councils required in the matter.

You will proceed with the work in accordance with the lines furnished you.

As to the estimates, they will be made as the contract provides.

Very truly,  
SAML. L. SMEDLEY,  
*Chief Engineer and Surveyor.*

CONTRACTOR'S OFFICE, FAIRMOUNT BRIDGE,  
PHILADELPHIA, July 11, 1873.

MY DEAR SIR:—Upon receiving yours of the 10th, I thought to call upon you, but believe it would be better that I should put my views in writing, so that for the present there may be no misapprehension as to the reason on which I suspend further work.

The remark in yours that "the City does not desire to make the change to which you refer," is a surprise to me, and places me in a very false position. Nearly three months ago, when I was proceeding to construct the abutments and retaining walls required by my contract, I received peremptory orders from Mr. Leuffer, the engineer in charge of the bridge, to discontinue the work. On

several occasions since he has told myself and several others connected with the work, that it was settled fact that the western approach to the bridge would never be built in accordance with the original design. About a month ago Mr. Leuffer was requested to furnish lines for the abutment on Bridge street. After some hesitation, he gave the requisite lines, and we commenced the excavation. That same evening he directed us to abandon the trench, by order of the Chief Engineer. In my interviews with yourself, you claimed the right to change the plan. Although I objected at the time. I was still uncertain about your power to make such a change, and it was not until the day before that on which I delivered you my letter of the 10th inst., that I was advised otherwise. You must therefore perceive that I have incurred considerable loss by this delay, which I desire to have adjusted.

You were also aware that I purchased a quarry from which to procure the backing of the mason work. This quarry, in the opinion of competent engineers, builders and mechanics, has suitable stone for the purpose of my contract. Although the quarry was procured at a great expense, to facilitate the progress of the work, you have deprived me of the use of the stone.

I propose to use all these stones that are suitable for the bridge, hereafter, when I resume the work, and if you insist otherwise, I wish it stated in writing.

You are likewise aware that I have, by your direction, performed some extra work, and expended my own funds in the purchase of apparatus, for neither of which have I received any estimate. This must be adjusted before I resume.

I must also decline to further proceed unless I have a corrected estimate, restoring the items which were unwarrantably stricken from the last two estimates, against which I protested in my former communication.

I am very respectfully yours,

JAMES F. KENNEDY.

TO SAM'L. L. SMEDLEY, ESQ.,

*Chief Engineer and Surveyor.*

*July 12, 1873.*

JAMES F. KENNEDY, ESQ.,

Contractor for Masonry, Fairmount Bridge :

DEAR SIR :—Having observed that in conformity with your note of the 10th inst., you have suspended operations upon the work of the Fairmount Bridge ; this is to notify you that if the usual force, or such number of men as shall be deemed by me a sufficient force, are not engaged upon the work on Wednesday morning next, I will, as provided in the contract, report the same to Councils, through his Honor the Mayor, for their action.

Very truly,

SAML. L. SMEDLEY,  
*Chief Engineer and Surveyor.*

OFFICE OF THE CHIEF ENGINEER AND SURVEYOR,  
PHILADELPHIA, *July 17, 1873.*

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—It becomes my duty to inform you that James F. Kennedy, contractor for masonry on Fairmount Bridge, suspended work there on Saturday morning, the 12th inst.

My formal directions to him to proceed have not been complied with.

I now report to your honorable bodies that said James F. Kennedy has abandoned his contract on Fairmount Bridge, by ceasing to work thereunder, and is not prosecuting the same with a sufficient number of workmen.

A copy of the contract, with our recent correspondence relative thereto, is appended. I am prepared to furnish you such additional information as I have in my possession, and shall await your action and direction in the matter.

Respectfully submitted,

SAML. L. SMEDLEY,  
*Chief Engineer and Surveyor.*

## RESOLUTION

Rescinding the contract with James F. Kennedy, for graduation and masonry for Fairmount Bridge, and directing the Chief Engineer and Surveyor to advertise for proposals for completing the same.

*Whereas*, James F. Kennedy, contractor for graduation and masonry of Fairmount Bridge, has abandoned his contract by ceasing to work thereunder, and is not prosecuting the same with a sufficient number of workmen ;

*And whereas*, The Chief Engineer and Surveyor, on the 17th day of July, A. D. 1873, did report to Councils that James F. Kennedy has abandoned his contract on Fairmount Bridge by ceasing to work thereunder, and is not prosecuting the same with a sufficient number of workmen ;

*And whereas*, Said contract provides that such report of the Chief Engineer and Surveyor to said Councils shall be conclusive evidence of the facts stated therein, upon all the parties thereto, and in that case that said Councils may rescind said contract by Ordinance or resolution, therefore

*Resolved by the Select and Common Councils of the City of Philadelphia*, That the contract bearing date the eleventh day of July, A. D. 1872, between the City of Philadelphia and James F. Kennedy, for the graduation and masonry of Fairmount Bridge, be and the same is hereby rescinded, and that the Chief Engineer and Surveyor be and he is hereby instructed to cause immediate advertisement to be made for proposals to complete the erection of said bridge in accordance with the provisions of said contract.

## APPENDIX No. 8.

### RESOLUTION

To restrict the lien of a certain judgment against Charles C. Carman and Samuel F. Prince.

*Resolved by the Select and Common Councils of the City of Philadelphia,* That the lien of the judgment in the District Court, of March Term, 1873, D. S. B., No. 4, and of March Term, 1873, D. S. B., No. 5, against Charles C. Carman and Samuel F. Prince, be and the same is hereby restricted as to the said Samuel F. Prince, to all that certain lot or piece of ground situate at the southeast corner of Twenty-third and Chestnut streets, in the City of Philadelphia; containing in front on Chestnut street, one hundred and fifteen feet, and extending in depth on Twenty-third street, one hundred and thirty-four feet. And the City Solicitor is hereby directed to file an agreement of record, restricting the lien of said judgments as aforesaid: *Provided,* The said lot of ground shall be clear of all encumbrances, except a dower of \$9,000: *And provided,* The City Solicitor shall first be satisfied that the interests of the City will not suffer.

## APPENDIX No. 9.

## RESOLUTION

To change the place of voting in the Third Division of the Fourth Ward.

*Resolved by the Select and Common Councils of the City of Philadelphia,* That the place of voting in the Third Division of the Fourth Ward, shall hereafter be at the house of Samuel Brown, northwest corner of Second and Monroe streets, the former place being no longer available for election purposes.

## APPENDIX No. 10.

OFFICE OF THE MAYOR OF THE  
CITY OF PHILADELPHIA, *August 5, 1873.*

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN:—Under the authority in me vested by the Act of Consolidation, I have called you together to consider an Ordinance providing for the construction of a sewer on Market street, between Fourth and Ninth streets, in the Sixth and Ninth Wards.

There being an imperative necessity for this sewer, especially for the purpose of draining the new post office building, about to be erected on Ninth street, above Chestnut, and travel on Market street having recently been seriously interfered with, and as there is now a prospect of a settlement of the railway difficulty, and the speedy repavement of the street, I deem it expedient to call a special meeting of your bodies, to take the necessary measures for the immediate construction of this sewer, that it might be built before the repaving of the street, thus saving expense to the City, preventing further obstruction to the throughfare, and injury to the business interests centred there.

Very Respectfully,

WM. S. STOKLEY,

*Mayor.*

## APPENDIX No. 11.

### AN ORDINANCE

To authorize the construction of a sewer on Market street, from Fourth street to Ninth street, and to make an appropriation therefor.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewer, viz.: On Market street, from Fourth street to Ninth street; said sewer to be built of brick, circular in shape, and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SECT. 2: The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewer above designated, and he shall allot it to the lowest bidder, and it shall be a condition of said contract, that the contractor shall accept the sums assessed upon and charged to the properties lying on the lines of said sewer, in manner and form authorized by Ordinance entitled "An Ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12th, 1866, and supplement thereto, approved February 16th, 1869; any excess over and above said assessment, in addition to that provided for by Ordinance entitled "An Ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes, and legal deductions in the construction of branch sewers," approved April 3d, 1868, to be paid out of appropriation as herein provided.

Campbell Harris, to erect a one-story timber storehouse, for plaster, rock, chalk, marble, soapstone, et cætera, on their lot on Beach street, north of Brown street, Eleventh Ward: *Provided,* That the said building shall be removed at any time by the passage of an Ordinance or resolution by Councils to that effect: *And provided,* That the said Smith and Harris first pay into the City Treasury the sum of twenty-five dollars to pay for the publication of this Ordinance. All Ordinances to the contrary hereof, notwithstanding.

## APPENDIX No. 15.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the proposals for completing the graduation and masonry of Fairmount Bridge, have received a report from the Chief Engineer and Surveyor with the annexed schedule of the amount of each bid.

Between the highest and lowest proposals there is a difference of \$246,653, the lowest bid being less than \$30,000 in excess of Mr. Kennedy's contract.

We have abundant evidence that the work cannot be done in accordance with the specifications for this amount, and considering the delays and losses which the City has to bear in giving out non-remunerative contracts, or in dealing with unskilful and irresponsible contractors, and in view of the great necessity of having the work completed at the earliest possible moment, your Committee in examining the proposals have deemed it their duty to inquire into the competency of the bidders to carry through the work without failure.

Several of the highest bidders have been successful in this line of work, and have facilities for carrying it through.

The middle one of all is Mr. Wm. M. Wiley, of this City, who has for many years been a contractor for heavy work, the most recent of which is the successful completion of the railroad tunnel through Baltimore. He is highly recommended by those having it in charge, both for the character of the work, and the energy with which it was prosecuted.

Your Committee, after carefully considering the subject, do not think it would be to the interest of the City to award this work to the lowest bidder. The contract with Mr. Kennedy provides, "And in case said contract shall be so rescinded, it is understood and agreed by said party of the second part hereto, that the said City of Philadelphia may at once, without any notice to the said party of the second part hereto, procure or employ any other party or parties the said City may deem proper, to finish the work and labor remaining unperformed under this contract, and furnish the material unsupplied at the time said con-

"tract is rescinded, at any price, and upon any terms said City may deem proper," and the advertisement reserves the right which is usual with railroad and other corporations, to reject any and all bids which may not be satisfactory.

With these views, we recommend that the contract be awarded to William M. Wiley, as the lowest and best bidder, and that the amount of security be increased to \$100,000, and we further recommend that an appropriation of \$260,000 to pay the difference between the balance of the sum appropriated, and that required for the completion of the graduation and masonry of Fairmount Bridge, be made.

We therefore present the accompanying resolutions, and ask their adoption.

OFFICE OF CHIEF ENGINEER AND SURVEYOR,  
PHILADELPHIA, *September 5, 1873.*

EDWARD LYSTER, ESQ.,

Chairman of Committee on Surveys :

DEAR SIR:—I present you in the annexed schedule the aggregate of each proposal received and opened in your presence on the 1st inst., for completing the graduation and masonry, and work provided for on Fairmount Bridge, under contract with James F. Kennedy, under date July 11th, 1872.

In all, eight proposals were received, one of which was excluded on account of not having been accompanied with the necessary bond.

Each proposal contains a bid for pneumatic piling, which will be included in the contract, but the adjoining column shows the amount with this item left out, for the purpose of comparison, with the amount of the original contract, in which the cost of said piling is not included.

The amount of contract with James F. Kennedy was \$372,200, \$27,500 having been paid on estimates, leaving \$344,700 unexpended thereunder.

There has been paid for iron work to the Keystone Bridge Company, \$33,100.

Respectfully submitted,

SAMUEL L. SMEDLEY,

Chief Engineer and Surveyor.

### MAYOR'S OFFICE OF THE CITY OF PHILADELPHIA, *September 9, 1873.*

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN:—I would call your attention to the urgent necessity for the better surface drainage of portions of the City, the insufficiency of which was the occasion of considerable damage to property by the recent heavy storm which visited us, particularly in the Sixteenth, Seventeenth, Eighteenth, and Nineteenth Wards. Alarmed by the disastrous consequences of it, a large meeting of the citizens of this locality has recently been held, and a committee appointed by them, waited upon me, asking that such action shall be taken in the premises as will prevent the recurrence of similar destruction of property and loss to them in the future.

As this is a matter requiring speedy attention, I deemed it but proper to bring it before your bodies at this your first meeting, and to recommend that such immediate action be taken by you, as shall meet the necessities of the case, and insure protection to life and property from flood in the localities named.

Very Respectfully,  
WM. S. STOKLEY,  
Mayor.

OFFICE OF THE MAYOR OF THE  
CITY OF PHILADELPHIA, *September 9, 1873.*

To the Common Council  
of the City of Philadelphia :

GENTLEMEN :—Pursuant to the request of the Committee on Surveys and Regulations, I have called you together to consider the annexed communication, relative to the bids and awarding the contract for the completion of the Fairmount Bridge.

I would suggest, at this time, that your body take into consideration the question whether it would not be advisable, and to the best interest of the City, to abandon the present site, straighten Callowhill street, and construct a bridge over the Schuylkill at Powelton avenue ; also placing the present bridge in good repair, which I am advised can be done at a cost not exceeding twenty thousand dollars.

It is a subject, in my opinion, deserving your serious attention.

Very Respectfully,  
W. S. STOKLEY,  
*Mayor.*

COMMITTEE ROOM, *September 5, 1873.*

TO HIS HONOR, W. M. S. STOKLEY,  
Mayor of the City of Philadelphia :

SIR :—At a meeting of the Committee on Surveys and Regulations, held this day, for the purpose of considering the bids and awarding contract for the completion of the Fairmount Bridge, the following resolution, upon the motion of Mr. Downing, was agreed to.

“ *Resolved*, That the Mayor be requested to call a special meeting of Councils for next Tuesday (September 9th), at 3 o'clock P. M.”

## APPENDIX No. 22.

OFFICE OF THE CHIEF ENGINEER AND SURVEYOR,  
PHILADELPHIA, *September 9, 1873.*

HON. A. WILSON HENSZEY,  
President Common Council :

DEAR SIR :—Numerous complaints have been received of the overflow in various parts of the City, from the recent rains, particularly in the Eighteenth and Nineteenth Wards. Owing to the great increase in roofing and paved surfaces northward of these Wards, the water is carried to the sewers so rapidly that the present capacity is inadequate. The subject has claimed the attention of this department, and sewers for Norris street and Palmer street, which will relieve this overflow, have been estimated for and approved by the Board of Surveyors.

In nearly every portion of the City increased sewer capacity is demanded, and during the past year estimates and plans have been prepared for a large number of main sewers, a schedule of which, amounting to \$1,412,600, has been considered by the Committee of Surveys and reported to Councils.

The demand is not confined to any locality, and as urgent appeals have been made from all directions, it seems important that a general loan should be passed, to provide

means for the construction of these main sewers, which are so much needed.

Very Respectfully,  
SAML. L. SMEDLEY,  
*Chief Engineer and Surveyor.*

APPENDIX No. 30.

OFFICE OF THE CHIEF ENGINEER AND SURVEYOR,  
PHILADELPHIA, *October 2, 1873.*

HON. A. WILSON HENSZEY,  
President of Common Council :

DEAR SIR :—In pursuance of a resolution of instruction directing the Chief Engineer and Surveyor to prepare an approximate estimate of the cost of a bridge over the Schuylkill river at Powelton avenue, I present the following report :

My predecessor, Mr. Kneass, prepared such an estimate, and presented it to Councils at the same time that the first report was made on Fairmount Bridge. I have revised this estimate so as to conform with present prices, for a trussed suspension bridge with twenty-six feet roadway, and sidewalks of eight feet, making a total width of forty-four feet. The piers and towers to be of stone, with a river span of five hundred feet. The estimate for such a bridge is \$1,350,000. I have not included any estimate for land damages for opening Powelton avenue, from Twenty-fourth and Callowhill streets to the river, or on the west side from the river to Thirty-second street; the street being laid down on the City plan, the expenses of opening should be paid in the usual way.

Respectfully submitted,

## RESOLUTION

To authorize the grading, curbing and paving of sidewalks on Dauphin street and Susquehanna avenue.

*Resolved by the Select and Common Councils of the City of Philadelphia,* That the Chief Commissioner of Highways be and is hereby authorized and directed to notify the owners of property fronting on Dauphin street, from Ridge avenue to Sedgely avenue, in the Twenty-eighth Ward; and Susquehanna avenue, from Ridge avenue to Twenty-ninth street, in the Twenty-eighth Ward, to grade, curb and pave sidewalks; and if they neglect or refuse to comply with the terms of said notice for thirty days from date thereof, the Chief Commissioner of Highways is hereby directed to proceed and do the work, and collect the cost from the property owners.

## APPENDIX No. 48.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN:—Your Committee on Surveys and Regulations, to whom was referred the resolution for the construction of a sewer on Market street, from Meadow street to Cobb's creek, respectfully report that the Board of Surveyors have approved a sewer for a portion of this distance from Meadow street to Fifty-second street, a distance of six squares; a three feet sewer will answer for four squares, and for the remainder of the distance, a sewer of four feet diameter will only require an appropriation of \$3,600.

This street is being paved under the provisions of an act of Assembly, and it is now nearly ready to lay the stone. This sewer should be laid before the street is paved, and in view of the small amount of appropriation required to gain such an important object, we recommend the adoption of the annexed Ordinance.

## AN ORDINANCE

To authorize the construction of a sewer on Market street, from Meadow street to Fifty-second street.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewer, viz. : on the line of Market street, from Fifty-second to Forty-eighth street with a clear inside diameter of three feet, and from Forty-eighth to Meadow street, the inside diameter shall be four feet. Said sewer to be built of brick, circular in shape, and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SECT. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewer above designated, and he shall allot the same to the lowest and best bidder, and it shall be a condition of said contract that the contractor shall accept the sums assessed upon and charged to the properties lying on the lines of said sewer in manner and form authorized by Ordinance entitled "An Ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12th, 1866, and supplement thereto approved February 16th, 1869; the excess over and above said assessments hereby provided for.

SECT. 3. That the sum of thirty-six hundred (\$3600) dollars be and is hereby appropriated for the purpose of paying said excess in the cost of construction over and above the said assessment bills, and that warrants for the same shall be drawn by the Chief Commissioner of Highways.

The amount thereof to be taken out of item for construction of branch sewers of appropriation to Highway Department of 1873.

## AN ORDINANCE

To amend an Ordinance, entitled "An Ordinance to authorize the construction of sewers on Bond, Woodlands, Lemon, Seventh, Twenty-third, Davis, Trout, Chestnut, Sixteenth, and Twenty-third streets, on Elmwood and Park avenues, and across Greenway avenue, approved the second day of June, A. D. 1873.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain,* That the Ordinance entitled "An Ordinance to authorize the construction of sewers on Bond, Woodlands, Lemon, Seventh, Twenty-third, Davis, Trout, Chestnut, Sixteenth and Twenty-third streets, on Elmwood and Park avenues, and across Greenway avenue, approved the second day of June, A. D. 1873, be and the same is hereby amended of follows; by striking out the word "Gold," and inserting "Brandywine."

APPENDIX No. 52.

RESOLUTION

Of direction to the City Solicitor.

*Whereas*, The Select Councils did on the 9th day of January, A. D. 1873, refer a communication relative to the Philadelphia and Erie Railroad, to the Railroad Committee to report thereon.

*And whereas*, Said Select and Common Councils directed said Committee to make their report thereon on October 2d, 1873.

*And whereas*, Said Committee having failed to make any report, it is alleged that two members of said Committee, after a careful examination, have appended their names to the following (which it is further alleged was designed as such report had it been signed by a majority of said Committee).

“Previously to entering into details your Committee would remark that this report is wholly derived from official sources; that there is nothing in it which cannot be substantiated by incontestable proof.

The labors of your Committee have, in accordance with the purpose of their appointment, been directed to ascertaining what causes have deterred the business of the Philadelphia & Erie Railroad from returning to its stockholders a dividend, however small. In furtherance of this purpose, your Committee have investigated: 1st, the charges for repairs to passenger and baggage cars; 2d, the charges for repairs to locomotives; 3d, the gross receipts from passenger travel; 4th, the gross receipts from freight; 5th, the charges incurred for maintenance of way, including the workshop account; and 6th, the charges made for construction.

In addition to the annual reports of the managers to the Auditor General of the State, and of their official reports to the Philadelphia & Erie stockholders, your Committee have also taken, for purposes of comparison, the similar reports of the Philadelphia & Reading Railroad Company. This was done for the reason that the Reading, like the

Philadelphia & Erie Road, is with its collaterals wholly within the State; that both were at liberty to obtain all the raw and finished materials they required from the same markets, and on equally favorable terms; that the rates of wages paid by each company, were at similar dates alike; that the portions of the State over which the two roads operated are not widely distant, in fact, in certain parts, are almost contiguous; that the topographies of the sections penetrated by the respective roads and their collaterals, are not essentially dissimilar; that the nature of the business transacted, and the components of it, were common to both roads; and that the annual reports of the Reading Company enter more into details than those of any other company with which a like comparison might be instituted. Nor did your Committee overlook the important fact that the annual reports required by law to be made to the Auditor General of the State, called for precisely the same information from each of the companies, concerning the respective conditions and yearly operations of their roads. Your Committee have argued, that whatever uncontrollable natural causes there might have been to prevent the average economy of the two roads from running in parallel lines, those sources of disagreement would necessarily be of such a permanent character as to manifest themselves during a series of years in a nearly equal percentage of variation between the working expenses of the two roads for equal amounts of business done; so that if in 1865 the average working expenses of the Reading Road were 50 per cent. greater than those of the Philadelphia & Erie Road for equal amounts of business done, while in 1872 the same expenses of the Philadelphia & Erie Road were 200 per cent. greater than those of the Reading for equal amounts of business, with a percentage of difference steadily though unequally growing against the Philadelphia & Erie Company, from 1865 to 1872, it would be fair to assume that the cause was *not* due to any peculiarity in the P. & E. Road, but to an inherent defect in its management.

1865 being the first year in which the whole road went into complete operation, the investigation begins with that year. It seems to have been the only year in which the official reports concerning the business of the road, make any approach to correctness or truth.

## CHARGES FOR REPAIRS TO PASSENGER CARS.

*From 1865 to 1872.*

Your Committee, when making up this statement, took as a guide the charges incurred by the Reading Company for similar repairs, and have felt themselves justified in doing so, because the cost of materials and labor required to make the repairs was the same for both roads, each company having the same markets to draw upon, and provided with equal facilities for turning out work. Also, the cars of both companies were employed for like purposes, and, therefore, the degree of wear and tear they were subjected to was not dependent upon any difference in the nature of the business they were engaged upon, but on the extent of that business. It has been assumed that the capabilities of the cars of the two roads for standing wear and tear, were equal; though, if any difference existed, the P. & E. cars were, when averaged, superior to the others, thus fitting them for more work at a less cost for repairs.

1865.

This year the Reading Company had in use 87 cars at a cost for repairs of \$46,000, or \$530 per car. The cars carried 36,582,415 passengers one mile, or one passenger that many miles, thus making the cost of repairs to equal .126 cents per passenger. The P. & E. Company had in use fifty-two cars, at a cost for repairs of \$12,061, or \$233 per car, they carried 26,372,556 passengers one mile. Had the cost of repairs averaged per passenger the same on the P. & E. Road as on the Reading, the charge to P. & E. Company for repairs would have been \$33,229, instead of \$12,061. It is well to bear in mind the charges incurred this year for repairs by the respective roads, in order to compare them with the widely different relative positions held by the two roads in subsequent years.

1866 and 1867.

The P. & E. returns to Auditor General for 1866, are incomplete in respect to charges for repairs, and therefore no

comparison can be made. In 1867 the cost of repairs averaged per passenger the same for both roads, the P. & E. charge being a very small fraction in excess of the Reading.

1868.

This year the Reading Company had 118 cars in use, at a cost for repairs of \$61,700, or \$523 per car. They carried 30,767,713 passengers one mile, thus making the cost of repairs to average .2 cents per passenger. The P. & E. Company had in use 60 cars, which according to the report to Auditor General, carried 18,041,080 passengers one mile, which at the Reading rate for repairs of .2 cents per passenger, would make the cost of repairs to P. & E. cars \$36,082; but the charge to P. & E. Company for such repairs was \$45,527, or an excess of \$9,445. There is reason to believe this excess is still greater because the Reading charge included the cost of wholly rebuilding several passenger cars, a cost more properly chargeable to the renewal than to the repair account, but by including these new cars in the repair account, the average Reading cost per passenger for such repairs was made sensibly higher than it would otherwise have been, and thus the P. & E. excess is made to appear \$9,445 instead of \$13,672.

1869.

This year the Reading Company had in use 140 cars at a cost for repairs of \$63,172, or \$487 per car; they carried 40,525,071 passengers one mile, thus making the cost of repairs to average .168 cents per passenger. The P. & E. Company had according to report to Auditor General, 53 cars in use, which, according to the same report, carried 19,227,143 passengers one mile, which at the Reading rate for repairs of .168 cents per passenger, would make the cost of repairs to P. & E. cars, \$32,301.60; but the charge against the P. & E. Company for such repairs was \$63,453, or an excess of \$31,152. At the Reading rate for repairs the cost to the P. & E. Company would have been \$610 per car, whereas the actual charge was \$1,200 per car.

1870.

This year the Reading Company had in use 145 cars at a cost for repairs of \$60,589, or \$418 per car; they carried 41,508,427 passengers one mile, thus making the cost of repairs to average .146 cents per passenger. The P. & E. Company had according to report to Auditor General, 51 cars in use, which, according to the same report, carried 20,214,600 passengers one mile, which at the Reading rate for repairs of .146 cents per passengers, would have made the cost of repairs to the P. & E. cars, \$29,513.32; but the charge against the P. & E. Company for such repairs was \$65,858, or an excess of \$36,345. At the Reading rate for repairs the cost to the P. & E. Company would have been \$580 per car, whereas the actual charge was \$1,291 per car.

1871.

This year the Reading Company had in use 229 cars at a cost for repairs of \$91,795, or \$400 per car; they carried 66,945,531 passengers one mile, thus making the cost of repairs to average .137 cents per passenger. The P. & E. Company had according to report to Auditor General, 52 cars in use, which, according to the same report carried 17,368,000 passengers one mile, which at the Reading rate for repairs of .137 cents per passenger, would have made the cost of repairs to P. & E. cars \$23,894.16; but the charge against the P. & E. Company for such repairs was \$73,012 or an excess of \$49,118. At the Reading rate for repairs the cost to the P. & E. Company would have been \$460 per car, whereas the actual charge was \$1,404 per car.

1872.

This year the Reading Company had in use 255 cars at a cost for repairs of \$96,783, or \$380 per car; they carried 73,607,349 passengers one mile, thus making the cost of repairs to average .132 cents per passenger. The P. & E. Company had according to report to Auditor General, 58 cars in use, which according to the same report carried 18,500,000 passengers one mile, which at the Reading rate for repairs of .132 cents per passenger, would have made the cost of repairs to P. & E. cars \$24,420; but the charge

against the P. & E. Company for such repairs was \$30,821, or an excess of \$66,401. At the Reading rate for repairs the cost to the P. & E. Company would have been \$422 per car, whereas the actual charge was \$1,566 per car.

#### C.

The total overcharge in

1868.....	\$9,445,	would have repaired	16 additional cars.
1869. ....	31,152,	would have repaired	51 additional cars.

1871.....	49,118,	would have repaired	107 additional cars.
1872.....	66,401,	would have repaired	157 additional cars.

Estimating the value of passenger cars not entirely new (such as are run on the P. & E. road) at \$3000 each, and of baggage cars at \$1200 each, the total excess of \$207,643 for repairs would have equipped the P. & E. road with 60 passenger and 23 baggage cars, or 25 cars more than were reported in use on the road in 1872, but not owned by the P. & E. Company.

*Remarks.*

*It would be interesting to learn why in 1865, before the P. & E. workshops had at an enormous outlay, reached their subsequent efficient condition, the cost of repairs to the P. & E. passenger cars was so very much less than what the Reading incurred upon a proportionately equal amount of service ; and it also would be interesting to learn why, as the P. & E. workshops approached nearer and nearer towards perfection in their appointments and ability to turn out work at the lowest rates, the charge per car for repairs on the P. & E. road should steadily advance year by year until in 1872 the climax was capped by such charges being 300 per cent. greater than the Reading Company incurred for a proportionately equal amount of service obtained out of their cars—THE COST OF REPAIRS TO 58 P. & E. CARS IN 1872 BEING ALMOST AS MUCH AS THAT FOR 255 READING CARS IN THE SAME YEAR.*

The unavoidable inference to be drawn from the foregoing exhibit, that other cars besides those reported to Auditor General as in use upon the P. & E. road, were repaired or built at the P. & E. workshops, and the P. & E. Company made to foot the bills. The query naturally follows, were the additional cars thus repaired or built at the P. & E. workshops, employed in the business of the P. & E. road, and if so, what was the amount of that business, and what became of the receipts? *It is a significant fact, and well worth bearing in mind, that the reported through passenger business suddenly dropped from 26,000 passengers in 1868 and 1869 to 4000 in 1870, 3300 in 1871, and 3800 in 1872.* Now, whatever impairs the stability or prevents the increase of through passenger traffic on a road, must also, to a nearly equal extent, affect the through freight business, because a longer route or higher charges than what rule on other roads running to the same points, must operate as detrimentally against through freight as through passenger traffic ; hence the amount of through freight carried over a road is a criterion of what the number of through passengers should be as compared with what was done at different periods in the history of the same road.

1872.....	3,814½	460,681

This (like all similar statements in this report) is taken from the official records of the company, given by them to their stockholders and to the Auditor General of the State. It shows that in 1867, 1868 and 1869 the through travel bore what may be deemed a normal relation to the through tonnage; but that of 1870, 1871 and 1872 appears absurdly small beside the reported through tonnage of those years. The through tonnage of 1872 indicates a through travel of 52,000 persons, when compared with the through travel which accompanied the through tonnage of 1867, 1868 and 1869: moreover, it is reasonable to infer that the number of through trains advertised by the lessees as running over the road in 1872 (eight daily, four each way,) would in a year carry more than 3,814½ through passengers, the number reported to Auditor General.

Referring to statement "C" in the foregoing summary, it appears that,—

The additional cars repaired, could have carried in

1868.....	16 cars.....	4,800,000	Passengers one mile.
1869.....	51 cars.....	18,400,000	Passengers one mile.
1870.....	63 cars.....	24,000,000	Passengers one mile.
1871.....	107 cars.....	35,000,000	Passengers one mile.
1872.....	157 cars.....	47,000,000	Passengers one mile.

Or a total over and above that reported of.....129,200,000 Passengers one mile.

Which the average rate charged per passenger or per mile, as reported to Auditor General, represents a gross receipt of six millions of dollars (\$6,000,000), it does not follow, of course, that the additional cars here given as repaired at the P. & E. shops were all employed on the P. & E. road; they may, some of them, have been built or repaired for other transportation Companies, and after the expense was charged to the P. & E. Company, never used on the P. & E. road; but, it may as well be stated in this

connection, that in another part of this report, under the caption "Gross receipts from Pass. Traffic," there will be found a statement drawn wholly from P. & E. official sources and based upon a series of calculations entirely independent of everything in the foregoing statement, which shows beyond a doubt that there is an indebtedness due to the P. & E. Company of nearly four millions of dollars for gross receipts from passengers; *and also, that the increase in the number of passenger stations from 68 in 1865 to 90 in 1871 and 1872, calls for a corresponding increase of passenger travel, instead of a reported falling off in 1872 from the number carried in 1865 of 8,000,000 of passengers carried one mile.*

## REPAIRS TO LOCOMOTIVES.

*From 1865 to 1872 inclusive.*

In estimating the amount of tonnage hauled by the locomotives of the Reading Company, and the P. & E. Company, the number of passengers carried one mile in each year has been reduced to tons by allowing  $16\frac{2}{3}$  persons to the ton of 2000 lbs.; two persons more or less than this average could not affect the result the one hundred thousandth part of a cent in the estimated cost per ton carried one mile.

According to the reports of the respective companies to the Auditor General, the average working capacities of the engines employed on the roads of the two companies were nearly equal, with a preponderance in favor of the P. & E. road.

The paying tonnage only has been taken into consideration because it is that at last which determines the profits or loss derived from running Freight and Passenger trains; but had the dead tonnage, such as weight of engines, cars and tenders used in transportation, been also taken into account, the result would have told seriously against the Managers, because of the much larger amount of such tonnage hauled by each of the Reading locomotives.

1865.

This year the Reading Company had in use 254 Locomotives at a cost for repairs of \$646,735; they hauled of

merchandise, coal, and passengers 358,830,981 tons one mile, or one ton that many miles; thus making the cost of repairs to average .18 cents per ton carried. The P. & E. Company had in use 89 Locomotives at a cost for repairs of \$168,287; they hauled of mdse., coal, and passengers 33,766,456 tons one mile, or one ton that many miles, which at the Reading rate of .18 cents per ton for repairs gives \$60,779, thus showing an excess of charge against the P. & E. Company of \$107,548.

1866.

This year the Reading Company had in use 267 Locomotives at a cost for repairs of \$600,277; they hauled of merchandise, coal, and passengers 436,357,163 tons one mile, thus making the cost of repairs to average .138 cents per ton carried. The P. & E. Company had in use 90 Locomotives at a cost for repairs of \$204,264; they hauled of merchandise, coal, and passengers (as per report to Auditor General) 79,700,170 tons one mile, which at the Reading rate of .138 cents per ton for repairs, gives \$109,987.61 thus showing an excess of charge against the P. & E. Company of \$94,277.

1867.

This year the Reading Company had in use 268 Locomotives at a cost for repairs of \$588,980; they hauled of merchandise, coal, and passengers 412,012,565 tons one mile, thus making the cost of repairs to average .1435 cents per ton carried. The P. & E. Company had (as per report to Auditor General) 90 Locomotives at a cost for repairs of \$202,198; they hauled of merchandise, coal, and passengers 86,487,479 tons one mile, which at the Reading rate of .1435 cents per ton for repairs gives \$124,109, thus showing an excess of charge against the P. & E. Company of \$78,089.

1868.

This year the Reading Company had in use 269 Locomotives at a cost for repairs of \$579,099; they hauled of merchandise, coal, and passengers 417,652,100 tons one mile, thus making the cost of repairs to average .139 cents per ton carried. The P. & E. Company had (as per report to Auditor General) 95 Locomotives at a cost for repairs of

\$223,297 ; they hauled of merchandise, coal, and passengers 131,018,622 tons one mile, which at the Reading rate of .139 cents per ton for repairs, gives \$182,115, thus showing an excess of charge against the P. & E. Company of \$41,182.

1869.

This year the Reading Company had in use 297 Locomotives at a cost for repairs of \$507,843 ; they hauled of merchandise, coal, and passengers 486,285,171 tons one mile, thus making the cost of repairs to average .104 cents per ton carried. The P. & E. Company had (as per report to Auditor General) 108 Locomotives at a cost for repairs of \$219,094 ; they hauled of merchandise, coal, and passengers 160,862,390 tons one mile, which at the Reading rate of .104 cents per ton for repairs gives \$167,296, thus showing an excess of charge against the P. & E. Company of \$51,798.

1870.

This year the Reading Company had in use 309 Locomotives at a cost for repairs of \$439,555 ; they hauled of merchandise, coal, and passengers 460,171,285 tons one mile, thus making the cost of repairs to average .0948 cents per ton carried. The P. & E. Company had (as per report to Auditor General) 120 Locomotives at a cost for repairs of \$234,030 ; they hauled of merchandise, coal, and passengers 174,562,918 tons one mile, which at the Reading rate of .0948 cents per ton for repairs gives \$165,485, thus showing an excess of charge against the P. & E. Company of \$68,545.

1871.

This year the Reading Company had in use 343 Locomotives at a cost for repairs of \$416,238 ; they hauled of merchandise, coal, and passengers 561,987,075 tons one mile, thus making the cost of repairs to average .0741 cents per ton carried. The P. & E. Company had (as per report to Auditor General) 126 Locomotives in use at a cost for repairs of \$212,108 ; they hauled of merchandise, coal, and passengers 198,602,360 tons one mile, which at the Reading rate of .0741 cents per ton for repairs, gives \$147,164, thus showing an excess of charge against the P. & E. Company of \$64,944.

1872.

This year the Reading Company had in use 377 Locomotives at a cost for repairs of \$452,400; they hauled of merchandise, coal, and passengers 611,194,282 tons one mile, thus making the cost of repairs to average .074 cents per ton carried. The P. & E. Company had in use (as per report to Auditor General) 130 Locomotives at a cost for repairs of \$232,819; they hauled of merchandise, coal, and passengers 36,001,152 tons one mile, which at the Reading rate of .074 cents per ton for repairs gives \$174,640, thus showing an excess of charge against the P. & E. Company of \$58,189.

It is proper here to state that up to and including the year 1868, the Reading charges for repairs to Locomotives comprised the cost of rebuilding a number (from six to ten) Locomotives in each of the years designated, a charge which properly belonged to the renewal, and not to the repair account, but by being included in the latter account, the Reading average rate per ton carried, for repairs, was made to appear much larger than the facts warranted, and thus the charges to the P. & E. Company for repairs is made to appear during that time \$100,000 less than they really were.

This exhibit, bad as it is, is much more favorable than the real facts of the case warrant, for we have assumed in the foregoing statement that all the freights transported over the P. & E. road was drawn by the Locomotives reported to Auditor General as in use on the road; whereas

it is well known that a large percentage of the freight, perhaps *all the through* freight, has been carried by transportation companies, who, it is said, own or rent their own Locomotives; it is therefore rather under than over the estimate to say, that from 1865 to 1872 inclusive the excess charged the P. & E. Company for repairs to locomotives, was from one hundred to one hundred and twenty thousand dollars a year, or, in other words, instead of \$697,000 given in the table here furnished, the P. & E. Company have been charged over one million of dollars more for repairs to Locomotives than there is reason to believe were really paid.

### PHILADELPHIA & ERIE WORKSHOPS.

These shops were constructed at an immense cost, out of the funds of the P. & E. Company, when, so far as the latter is concerned, they were not really called for, and the money squandered upon them might have been saved; particularly when the Company, according to the statement of the Lessees, was at the time of their erection financially barely able to keep itself from going under, and having no equipment of its own, the repairs to that furnished by other parties could have been kept in order at the shops of those to whom the equipment belonged.

One might suppose that the enormous charges made out against the P. & E. Company for keeping the rolling stock furnished by other parties in order, ought to at least have covered every imaginable expense connected with the workshop business; but so far from this being the case, that in addition to the charges and over charges already enumerated, the P. & E. Company have been charged with workshop expenses, the magnitude of which, without the sworn testimony of the Managers to the Auditor General, would be absolutely incredible. Take the following as an instance: *In 1872 the P. and E. Company were charged for oil, fuel, clerks, and watchmen at the shops \$122,325, while the expenses of the Reading Company during the same year for the same purposes were only \$27,042, or nearly \$100,000 less; and yet the Reading Company had to keep in repair an equipment 4.6 times larger than that used on the P. and E. road, besides manufacturing nearly all the cars, machinery,*

*&c., required for the use of the road!* In this connection the subjoined table is interesting.

Charges for Oil, Fuel, Clerks, Watchmen, &c., of Reading and P. & E. shops compared.

	P. & E. Co.	Reading Co.	Overcharge of P. & E. Co.
1865.....	86,783	40,417	46,366
1866.....	90,905	39,546	51,359
1867.....	83,000	56,825	26,175

1870.....	91,796	41,569	50,227
1871.....	98,677	29,191	69,486
1872.....	122,325	27,042	95,283

The total charged to the P. & E. Company for the items given, amounted to \$734,042, while the Reading charge within the same period was only \$347,866, or \$406,176 *less* than the P. & E. Now, if the Reading with all the vast demands upon its shops expended \$347,866 for the items named, what must have been the magnitude of the business done at the P. & E. shops which called for \$732,042, and what must have been the expense entailed on the P. & E. Company to maintain such a business for the benefit of others! What that expense thus entitled was, is partly indicated by the excess charged the P. & E. Company for repairs to Locomotives, Passenger and Baggage cars as set forth in this report; what additional charges beyond the legitimate demands of its business, the P. & E. Company have had to sustain, can only be learned from an examination of such books, papers, accounts and persons as your Committee have not legally the power to peremptorily call for.

## CONSTRUCTION ACCOUNT.

Your Committee have labored under many difficulties in their attempts to obtain reliable data concerning this account: every effort made to elicit information from the President and Directors of the Philadelphia & Erie Railroad Company has proved abortive, thus obliging your Committee to be contented with what could be gleaned from the reports of the Treasurer to the P. & E. Stockholders, and the annual reports made to the Auditor General; it should therefore be understood that what is here given by

no means covers the whole ground requiring investigation ; the following statement, however, can be relied upon as correct so far as it goes, and though sufficiently important in itself, it is chiefly valued as an indication of what may be expected when there are no impediments to a clear exposition of the whole case.

The report made to the Auditor General for the year 1866, states that the number of bridges, stations, depots, &c., along the line of the road was the same at the close of 1866 as of 1865, yet the report of the Treasurer to the P. & E. Stockholders contains a charge of \$68,821.64 for *new* depots and stations. The same report charged the P. & E. Company with \$45,774.45 for road construction, but according to the report to the Auditor General there was no "road construction" in 1866, except 8.31 miles of sidings, for which the Treasurer's report provides \$115,047.25 additionally. It must be understood these charges were exclusive of the heavy outlay called "maintenance of way," to which the P. & E. Stockholders were put for keeping the roadways, bridges, culverts and buildings in repair. We may therefore conclude, in the absence of all proof to the contrary, that the items here excepted to in the Treasurer's report, amounting to \$114,596.07, are erroneous.

The Treasurer's report to the P. & E. Stockholders for the year 1867, contains a charge of \$248,756.53 for sidings, depots, stations, and shops erected in 1866 to June of 1867, but, according to the report to the Auditor General, there were, excepting 7.783 miles of siding, no new structures built within that period, and therefore, if we admit that the 7.183 miles of siding cost the same as the 8.31 miles constructed in 1866 (\$115,047.25), there still remain \$133,700 to be accounted for. The same report charges \$75,678 for Erie Round House, sidings, depots and stations, but as these excepting the Round House, had been already provided for, it is fair to assume that at least \$60,000 of this expenditure requires explanation. We may therefore conclude that the items, amounting to \$194,000, in the Treasurer's report here objected are, in the absence of all proof to the contrary, erroneous. *These charges and those hereafter referred to in this connection were exclusive of the heavy outlay called "Maintenance of Way," to which the P. & E. Stock-*

*holders were put by the Lessees for keeping the road, bridges, culverts, buildings, &c., in repair.*

The report made to the Auditor General for the year 1869, states that excepting two *water* stations, the number of stations, &c., along the line of the road was the same at the close of 1869 as of 1868, yet the Treasurer's report to the P. & E. Stockholders contains a charge of \$96,098.38 for *new* stations, bridges, &c., or \$90,000 more than seem justifiable. There is also a charge of \$41,932.95 for engine houses, shops, bridges and culverts, but as the number of these reported to Auditor General in 1869 did not vary from that reported in 1868, it is difficult to comprehend how so large a sum could have been expended upon what seems to have had no existence. There is also an item of \$24,263 for road construction, the report to the Auditor General however contains nothing to which such an expenditure can be referred, since the sidings and superstructures built that year were provided for by the Treasurer in a separate charge, amounting to \$195,987. We may, therefore, in the absence of proof to the contrary, conclude that the items in the Treasurer's report here excepted to, and amounting in round numbers to \$156,000, are erroneous.

According to the report to the Auditor General, there were no new stations, engine houses, or shops built in 1870, yet the Treasurer's report says \$53,267 were expended for that purpose. The number of bridges reported to Auditor General this year was five *less* than in 1869, nevertheless the Treasurer's report says \$30,474 were expended for *new* bridges. A satisfactory explanation is certainly desirable respecting the uses to which these \$83,700 were really put.

In 1871 there were 14 new stations built at a cost, according to the Treasurer's report for that year, of \$106,247, or \$7,600 per station, a charge the liberality of which invites attention.

The report to the Auditor General for 1872 gives the same number of stations, depots, bridges, &c., as that of 1871, yet the Treasurer's report contains a charge against the P. & E. Company of \$108,750 for such structures.

There is also a charge of \$302,000 for "double and second track," but the report to Auditor General states there was no double or second track apart from the sidings, and as there were expended for the latter that year, if we are

to believe the Treasurer's report, \$111,152, it follows that including the \$302,000, there were \$410,750 said to have been expended on Construction Account in 1872, of which there seems to be no tangible evidence.

RECEIPTS FROM PASSENGER TRAFFIC.

*From 1865 to 1872 inclusive.*

1865.

In 1865 the gross receipts from passengers were, as per report to Auditor General, and to the P. & E. Stockholders, \$923,041.67, which amount represents 3.5 cents (the reported rate charged each passenger per mile), 26,372,556 persons carried one mile, or one person carried that many miles; and these 26,372,556 persons carried one mile, represent 769,250 persons transported 395,189 miles in passenger trains (as per report to the Auditor General). Now, on this basis, furnished by the managers themselves, are made the calculations of what were annually the gross receipts from Passenger traffic up to and including the year 1872.

1866.

In 1866 there were, according to report to P. & E. Stockholders, and the report to Auditor General, 695,415 persons carried over the P. & E. road, or 9.6 per cent. less than in 1865, and the number of miles these persons were carried in passenger trains was 469,797, or 18.8 per cent. farther than in 1865, thus making the total Passenger traffic 9.2 per cent. greater in 1866 than in 1865. Add 9.2 per cent. to the 26,372,536 persons carried one mile in 1865, and we have 28,798,809 as the number of persons carried one mile

in 1866, or one person carried that many miles, which at 3.5 cents per person or per mile (the average rate reported to Auditor General), gives a gross receipt of \$1,007,958. But the gross receipts for Passenger traffic reported in 1866 were only \$734,725, thus showing a balance due to P. & E. Co., from this source, of \$273,233.

## 1867.

In 1867 there were, according to report to Stockholders, and the report to Auditor General, 635,542 persons carried over the P. & E. road, or 17.38 per cent. less than in 1865; and the number of miles these persons were carried in passenger trains was 518,646, or 31.24 per cent. farther than in 1865, thus making the total Passenger traffic 13.68 per cent. greater in 1867 than in 1865. Add 13.86 per cent. to the 26,372,536 persons carried one mile in 1865, and we have 30,027,792 as the number of persons carried one mile, or one person carried that many miles in 1867, which at 3.5 cents per person or per mile (the average rate reported to Auditor General), gives a gross receipt of \$1,050,843.72. But the gross receipts from Passenger traffic reported in 1867 were only \$637,941.65, thus showing a balance due to P. & E Co. from this source of \$412,907.07.

## 1868.

In 1868 there were, according to report to Stockholders, and report to Auditor General, 629,320 persons carried over the P. & E. road, or 18.2 per cent. less than in 1865, and the number of miles these persons were carried in passenger trains was 509,382, or 28.89 per cent. farther than in 1865; thus making the total Passenger traffic 10.69 per cent. greater in 1868 than in 1865. Add 10.69 per cent. to the 26,372,536 persons carried one mile in 1865, and we have 29,191,782 as the number of persons carried one mile, or the number of miles one person was carried in 1868 over P. & E. road, which at 3.5 cents per mile or per passenger (the average rate reported to Auditor General), gives a gross receipt of \$1,021,711. But the gross receipts from Passenger traffic reported in 1868 were only \$631,437.59, thus showing a balance due to the P. & E. Company from this source of \$390,274.

1869.

In 1869 there were, according to the report to P. & E. Stockholders, and the report to the Auditor General, 651,039 persons carried over the P. & E. road, or 15.37 per cent. *less* than in 1865, and the number of miles these persons were carried in passenger trains was 502,224, or 27 per cent. farther than in 1865, thus making the total Passenger traffic 11.63 per cent. greater in 1869 than in 1865. Add 11.63 per cent. to the 26,372,536 persons carried one mile in 1865, and we have 29,439,634 as the number of persons carried one mile, or the number of miles one person was carried in 1869, which at 3.5 cents per mile or per passenger (the average rate reported to Auditor General), gives a gross receipt of \$1,030,389.4. But the gross receipts from passenger traffic reported in 1869 were only \$672,964.46, thus showing a balance due to P. & E. Co. from this source of \$357,424.42.

1870.

In 1870 there were, according to the report to P. & E. Stockholders, and the report to Auditor General, 662,155 persons carried over the P. & E. road, or 13.9 per cent. *less* than in 1865, and the number of miles these persons were carried in passenger trains was 537,439, or 36 per cent. farther than in 1865, thus making the total passenger traffic 22.1 per cent. greater in 1870 than in 1866. Add 22.1 per cent. to 26,372,536 persons carried one mile in 1865, and we have 32,200,866 as the number of persons carried one mile, or the number of miles one person was carried over the P. & E. road in 1870, which at 3 cents per mile or per passenger (the average rate reported to Auditor General), gives a gross receipt of \$966,025.98. But the gross receipts from passenger traffic reported in 1870 were only \$606,438.31, thus showing a balance due to P. & E. Company from this source of \$359,587.67.

1871.

In 1871 there were, according to report to P. & E. Stockholders, and the report to Auditor General, 684,834 persons carried over the P. & E. road, or 11 per cent. *less* than in 1865, and the number of miles these persons were carried in passenger trains was 562,946, or 42.45 per cent. farther

than 1865, thus making the total passenger traffic 31.45 per cent. greater in 1871 than in 1865. Add 31.45 per cent. to 26,372,536 persons carried in 1865 one mile, and we have 34,671,973 as the number of persons carried one mile, or the number of miles one person was carried over the P. & E. road in 1871, which at 3 cents for 951,050, and 3.5 cents for 33,715,648 (the average rate reported to the Auditor General), gives a gross receipt of \$1,201,578. But the gross receipts from passenger traffic reported in 1871 were only \$607,878.94, thus showing a balance due to P. & E. Company from this source of \$600,700.

## 1872.

In 1872 there were, according to report to P. & E. Stockholders, and the report to Auditor General, 839,793 persons carried over the P. & E. road, or 9 per cent. more than in 1865, and the number of miles these persons were carried in passenger trains was 663,542, or 67.5 per cent. farther than in 1865, thus making the total passenger traffic 76.5 per cent. greater than in 1865. Add 76.5 per cent. to 26,372,536 persons carried one mile in 1865, and we have 46,547,526 as the number of persons carried one mile, or the number of miles one person was carried over the P. & E. road in 1872 which on 1,105,150 carried at 3 cents, and 45,442,376 at 3.5 cents (the average rate reported to the Auditor General), gives a gross receipt of \$1,623,647.66. But the gross receipts from passenger traffic reported in 1872 were only \$647,274.09, thus showing a balance due to the P. & E. Company from this source of \$976,373.57.

Total due on gross receipts from Passenger  
Traffic from 1866 to 1872.....\$3,834,157

*Remarks.*

The foregoing statements, showing an indebtedness on the part of the Lessees to the P. & E. Company, of nearly four millions of dollars on the gross receipts of the Passenger Traffic of the road, from the year 1866 to 1872 inclusive, certainly indicates a very poor prospect for the Stockholders, so long as the P. & E. road is under its present management. As examples of this management, your Committee would draw attention to a contrast between the Passenger business of the P. & E. road in 1865 and 1872, as reported by the Managers themselves. *In 1865, 769,250 passengers were carried 395,189 miles for \$923,041.67; but in 1872, according to the managers, the carrying of 839,793 passengers 663,542 miles, at the same average rate of fare as in 1865, produced only \$647,274.09.* HERE WERE 70,000 MORE PASSENGERS CARRIED IN 1872 THAN IN 1865, AND HERE WERE 840,000 PEOPLE CARRIED 250,000 MILES FARTHER THAN THE 770,000 IN 1865, AND YET THE MANAGERS REPORT THE GROSS RECEIPTS OF 1872, \$276,000 *less* THAN IN 1865.

A favorite plea in justification of the poor returns of gross receipts from Passenger traffic has been, and is, that the road runs through a section of country so sparsely populated as to furnish but an insignificant local traffic; a glance, however, at the reports made to the Auditor General, goes far to invalidate this plea. In 1865 there were 68 stations on the road, including passengers and freight; these were gradually increased, until in 1871 and 1872 the number reached ninety (90), of which thirty-seven (37) were exclusively passenger depots, and fifty-three (53) passenger and freight stations combined. Here then we have a passenger station at every 3.20 miles on a road nearly 300 miles long, which certainly does not imply a want of local passenger business where so many facilities were required to accommodate it.

In the foregoing statement we have been obliged to take the figures as to the number of passengers and the miles they were carried in passenger trains which were given in the reports; we nevertheless have reason to believe that the true numbers were sensibly larger than those reported. The number of through trains each way daily, which ran over the P. & E. road, seems to justify a larger through

travel than 3,814 passengers in a year (the number furnished in report to Auditor General for the business of 1872), and the increase in the number of passenger stations over those found adequate to the wants of the road in 1865, calls for a local or way passenger business of at least one million of persons a year, when compared with the business of 1865.

## GROSS RECEIPTS FROM FREIGHT.

### 1865.

This year, the gross receipts from freight carried over the P. & E. road amounted to \$1,083,925, which at the average reported to Auditor General as charged per ton a mile, represents 32,154,000 tons carried one mile, or one ton carried that many miles.

### 1866.

This year there were, according to report to stockholders, and the report to Auditor General, 815,086 tons merchandise and coal carried over the P. & E. road, or 52.36 per cent. more than in 1865, and the number of miles this tonnage was carried amounted to 958,313, or 90 per cent. more than in 1865; thus making the total freight business 142.36 per cent. greater in 1866 than in 1865, or 77,952,670 tons carried one mile, or one ton carried that many miles. The proportion of coal to merchandise was 45.8 per cent. This year the Reading Company carried 1,037,121 tons general merchandise; add to this 45.8 per cent., for proportion of coal to merchandise on P. & E. road, and we have a total tonnage of 1,512,122 tons, equal, as per statement A, Reading report, to 91,374,580 tons carried one mile for \$2,451.539, or 2.683 cents per ton a mile, or per mile a ton. The 77,952,670 tons carried this year over P. & E. road, yield, at 2.683 cents, \$2,091,470. But the gross freight receipts reported were only \$1,744,291, thus showing a balance due the P. & E. Company, from this source, of \$347,171. *Even at the average P. & E. rate of 2.61 cents per ton a mile, reported to Auditor General, the gross receipts amounted to \$2,034,564, or \$290,265 more than the P. & E. Company received credit for.*

1867.

This year, according to report to P. & E. Stockholders, and to the Auditor General, the freight business was 163.9 per cent. greater than in 1865, or 84,687,812 tons carried one mile, or one ton carried that many miles. The proportion of coal to merchandise was 30.3 per cent. This year the Reading Company carried 1,185,896 tons general merchandise; add 30.3 per cent. for proportion of coal to merchandise on P. & E. road, and we have 1,545,222 tons, equal as per statement A, Reading report, to 87,326,602 tons carried one mile for \$2,192,725, or 2.51 cents per ton a mile. At 2.51 cents the 84,687,812 tons carried one mile over the P. & E. road, gives a gross receipt of \$2,125,664. But the gross receipts from freight reported were only \$1,631,902; thus showing a balance due the P. & E. Company, from this source, of \$493,672. *Even at the P. & E. reported average rate of 2.2 cents, the gross receipts amounted to \$1,710,693, or \$78,791 more than the P. & E. Company received credit for.*

1868.

This year, according to report to P. & E. Stockholders, and to the Auditor General, the freight business was 301.9 per cent. greater than in 1865, or 129,267,116 tons carried one mile, or one ton carried that many miles. The proportion of coal to mdse. was 42.11 per cent. If to the tons of general mdse. carried this year over the Reading road, there are added 42.11 per cent. for proportion of coal to mdse. on P. & E. road, we have 1,734,589 tons, equal as per Statement A, Reading report, to 102,080,615 tons carried one mile for \$2,308,898, or 2.262 cents. per ton a mile. At 2.262 cents, the 129,267,116 tons carried one mile over the P. & E. road give a gross receipt of \$2,924,022, but the managers' account for \$2,101,613; thus showing a balance due the P. & E. Company, from this source, of \$822,408. According to the reports to Auditor General, the average rates for freight on the Reading road were for coal, 1.53 cents, and for mdse. 2.84 cents; while for the P. & E. road, the reported average was only 1.609 cents per ton, a small percentage larger than the Reading received for coal alone.

1869.

This year, according to report to P. & E. Stockholders, and to the Auditor General, the freight business was 394.64 per cent. greater than 1865, or 159,096,009 tons carried one mile. The reported proportion of coal to mdse. was 48.28 per cent. If to the tons of general mdse. carried this year over the Reading road, we add 48.28 per cent. for reported proportion of coal to mdse. on P. & E. road, we have 2,109,636 tons, equal as per Statement A, Reading Report, to 129,989,297 tons carried one mile for \$2,936,732, or 2.259 cents per ton a mile. At 2.259 cents per ton, the 159,096,009 tons carried one mile over the P. & E. road, give a gross receipt of \$3,593,978; but the managers' account for only \$2,507,082; thus showing a balance due the P. & E. Company, from this source, of \$1,086,896. The Reading average rates, as per report to Auditor General, were, for coal 1.98 cents, and for mdse. 2.58 cents per ton, while the P. & E. average rate was upon the same authority only 1.41 cents per ton, or 29 per cent. less than the Reading received for coal alone. *In this and subsequent years, the managers in their efforts to prove that the business of the road did not suffice to meet its running expenses, have unwittingly confessed to their mismanagement; they fixed the gross receipts that should be allowed to the P. and E. Stockholders at \$2,507,082, and then swore to the Auditor General that all they could get for freight was on an average only 1.41 cents per ton: now, it requires 177,800,000 tons, carried one mile, to yield 2,507,082, at 1.41 cents, per ton, whereas the number of tons they reported as carried, and the number of miles the tonnage was transported, do not equal more than 159,096,009 tons carried one mile, as given above. It is probable there were 177,800,000 tons carried one mile over the P. and E. road in 1869; but, if so, the tonnage reported and the number of miles it was carried, do not sustained that belief, therefore the very low average rate of 1.41 cents per ton for freight reported to Auditor General, is evidently erroneous.*

1870.

This year, according to report to P. & E. Stockholders and to the Auditor General, the freight charge was 436.5 per cent. greater than in 1865, or 172,600,800 tons carried one mile. The reported proportion of coal to merchandise was 69.5 per cent. If to the tons of general merchandise carried this year over the Reading road, there are added 69.5 per cent. for reported proportion of coal to merchandise carried over P. & E. road, we have 2,975,330 tons equal, as per Statement A, Reading Report, to 200,643,553 tons carried one mile for \$3,828,230, or 1.909 cents per ton. At 1.909 cents per ton, the 172,600,800 tons carried one mile over the P. & E. road, give a gross receipt of \$3,284,949, but the Managers' account for only \$2,459,154; thus showing a balance due the P. & E. Company, from this source of \$825,895. *The Reading average rate for freight was, for coal 1.70 cents and for merchandise 2.27 cents, while the reported average P. and E. rate for all classes of merchandise was only 1.27 cents or 25 per cent. below what the Reading obtained for coal alone: that this was erroneous, is evident from the fact that at such a rate there must have been 190,600,000 tons carried one mile to realize \$2,459,154 (the reported gross receipts), which was simply impossible for the amount of tonnage and the number of miles it was carried according to the report to Auditor General.*

1871.

This year, according to report to P. & E. Stockholders, and to the Auditor General, the freight business was 511.99 per cent. greater than in 1865, or 199,522,040 tons carried one mile, or one ton that many miles. The reported proportion of coal to merchandise was 63 per cent. If to the tons of general merchandise carried over the Reading road this year, there are added 63 per cent. for reported proportion of coal to merchandise, carried over P. & E. road, we have 3,757,531 tons, equal, as per Statement A, Reading Report, to 240,568,044 tons carried one mile for \$4,988,642 or 2.0734 cents per ton a mile. At 2.0734 cents per ton, the 196,522,040 tons carried one mile over the P. & E. road give a gross receipt of \$4,074,687, but the Managers' account

for only \$2,800,358; thus showing a balance due P. & E. Company, from this source, of \$1,274,329. *The Reading average rate per report to Auditor General, was for coal 1.77 cents, and for merchandise 2.66 cents per ton, while the reported P. and E. average rate for all classes of merchandise was only 1.195 cents per ton, or 33 per cent. below what the Reading received for coal alone: that this was erroneous is evident from the fact, that at such a very low rate, there must have been 234,840,000 tons carried one mile in order realize \$2,800,353 (the reported gross receipts), which was simply impossible for the reported amount of tonnage and the number of reported miles it was carried.*

## 1872.

This year, according to report to P. & E. Stockholders, and to the Auditor General, the freight business was 625.06 per cent. greater than in 1865, or 233,280,300 tons one mile, or one ton carried that many miles. The reported proportion of coal to merchandise was 74.5 per cent. If to the tons of general merchandise carried over the Reading road this year, we add 74.5 per cent. for reported proportion of coal to merchandise carried over the P. & E. road, we have 5,005,493 tons, equal, as per Statement A, Reading Report, to 334,749,760 tons carried one mile for \$6,012,429 or 1.79 cents per ton a mile. At 1.79 cents per ton the 233,208,300 tons carried one mile over the P. & E. road, give a gross receipt of \$4,174,428, but the Managers account for only \$3,177,548; thus showing a balance due P. & E. Company, from this source of \$996,880. *The Reading average rate per report to Auditor General, was, for coal 1.54 cents, and for merchandise 2.26 cents, while the reported P. & E. average rate for all classes of merchandise was only 1.19 cents per ton, or 26 per cent. below what the Reading received for coal alone; that this was erroneous is evident from the fact that at such a very low rate there must have been 267,200,000 tons carried one mile to realize \$3,177,548 (the reported gross receipts,) which was simply impossible for the reported amount of tonnage, and the number of reported miles it was carried.*

Total due P. & E. Company on gross receipts from freight.....\$6,692,536

*Remarks.*

There were no valid reasons why the rates for freight charged on the P. & E. road should not have been as high as those obtained on the Reading road, if not higher; for the merchandise transported by each of the roads was of a like description, the preponderance of the better class being on the side of the P. & E., and the two roads are relatively so situated that any general, commercial, financial or other outside influences which affected the one could not but affect the other; *and although rivalry with other roads might affect through freight to a common point, yet such action could have little, if any, effect upon local freight, the latter class of freight being almost wholly at the mercy of the road over which it must pass to reach a market,* NOW, THE LOCAL FREIGHT ON THE P. & E. ROAD WAS LARGELY IN EXCESS OF THE THROUGH FREIGHT. THE TOTAL AMOUNT OF LOCAL FREIGHT CARRIED OVER THE ROAD, FROM 1865 TO 1872, INCLUSIVE WAS, AS COMPARED WITH THE THROUGH FREIGHT FOR THE SAME PERIOD, JUST DOUBLE THAT OF THE THROUGH FREIGHT (380,250,000 TONS OF THROUGH, AND 707,040,000 TONS OF LOCAL FREIGHT CARRIED ONE MILE), AND THE RATES CHARGED WERE VERY HIGH, THREE CENTS PER TON A MILE BEING EXCEPTIONALLY LOW, WHILE AS HIGH AS TWELVE CENTS A TON PER MILE WERE CHARGED ON CERTAIN CLASSES OF MERCHANDISE. As regards the through freight, your Committee obtained a mass of information from forwarders of goods from Sunbury to Erie, but were unable to discover

that any merchandise had been in past year transported between the two termini of the road at one cent per mile; the nearest approach to such a price was, for coal, which in the years 1870, 1871 and 1872, was charged from \$3.00 to \$3.70 per ton, or  $1\frac{1}{4}$  cents per mile. *Moreover, the managers have themselves confessed in their reports to the Auditor General, that the rates on the P. & E. road need not be less than the Reading average rate; compare the Reading rate in this report for 1866 with the P. & E. report to Auditor General for that year, and the difference will be FOUND TO BE ONLY SEVEN ONE-HUNDREDTH OF A CENT PER TON.* Therefore, the average rate of freight, as deduced in this report from the Reading rate, may be taken for granted as being under the true average rate obtained on the P. & E. road. *The constant refusal of the officers of the P. & E. Company to furnish your Committee with the rates charged for transporting different classes of merchandise over the P. & E. road, points to a consciousness on the part of those officers that the information, if imparted, would lead to disagreeable revelations.*

Attention is here asked to the discrepancies between the number of tons carried one mile, as given in this Report, and the number deducible from the reports to the Auditor General.

Year.	Tons, one mile, per this Report.	Per P. & E. Report.	Difference.
1865 .....	32,164,000	32,164,000	
1866 .....	77,932,670	66,835,210	Deficit, 11,117,460
1867 .....	84,687,812	80,787,000	Deficit, 4,100,812
1868 .....	129,267,116	130,616,000	Excess, 1,348,884
1869 .....	159,096,008	177,800,000	Excess, 18,400,000
1870 .....	172,600,800	190,632,000	Excess, 18,031,200
1871 .....	196,522,040	234,340,000	Excess, 38,800,000
1872 .....	233,208,300	267,200,000	Excess, 33,991,700

Had there been any error in the method of calculation adopted in this Report, the result would have shown itself in a uniform manner, because the calculation is, for each year, based independently on the amount of tonnage transported one mile in 1865, and therefore it is impossible for such a method of calculation, even if erroneous, to make the tonnage appear 11,000,000 too great in 1866, and 34,000,000 too small in 1872. The following may be accepted as an explanation of the cause of these discrepancies: *so long as by the terms of the lease the P. and E. Company*

*had to receive 30 per cent. of the gross receipts, the Managers were interested in representing the gross tonnage at less than its actual amount, but when under the modified lease they were required to pay the P. and E. Company only the surplus that might be left after paying interest on the bonds and the current expenses of the road, they were interested in representing the average cost of transporting merchandise to be nearly, if not quite, as large as the average rate received for transporting it ; but by so acting in this latter case, they unwittingly made it appear that a much larger amount of tonnage was carried over the road than could be accounted for by the figures given to the Auditor General. This device could not be safely resorted to when reporting the gross receipts from passenger traffic, because the rates of fare charged were too notorious for concealment, therefore the true rate per passenger per mile was given to the Auditor General, but the gross receipts were reported at much less than the actual amount, and thus the number of passengers carried one mile was made to appear much smaller than the figures given to the Auditor General demanded ; as, for instance, the number of passengers carried one mile in 1865, per Managers' report, was 26,372,756, while in 1872 it is on the same authority made to appear only 18,207,800, although in 1872 there were 70,000 more passengers carried than in 1865, and the entire number of passengers was carried 250,000 miles further in 1872 than in 1865.*

It will be observed that the average Reading rate for coal and merchandise, applied in this report to the tonnage carried over the P. and E. road, by no means equals the average rate for coal and merchandise reported by Reading Company to Auditor General. Thus in 1868 the Reading average rates reported to Auditor General were, for coal and merchandise, 1.53 and 2.84 cents respectively per ton, which would give for an equal number of tons of coal and of merchandise a common average of 2.19 cents per ton ; but the proportion of coal to merchandise on the P. and E. road was 42.11 per cent. to 100 per cent. ; and, therefore, if the Reading rates, as reported to Auditor General, were applied in this proportion to the P. and E. tonnage, it would give a common rate of 2.45 cents per ton instead of 2.262 cents (the rate applied in this Report to the P. and E. tonnage) ; so that in this Report the lessees have been given the ad-

vantage of the losses the Reading Company have incurred through the maintenance of lateral roads, the expenses of which have exceeded the revenue derived from them. The rates reported by the Reading Company to Auditor General were those realized on the main line, and in strict justice these are the rates which should be applied to the P. and E. tonnage, as the P. and E. road has no lateral roads corresponding to those of the Reading, the maintenance of which are a drain upon the revenues of the main line. The following table will show the margin which has been granted the managers in this Report, when applying the Reading rates for freight to the P. and E. tonnage:—

Year.	Actual Reading Average Rate.	Rate applied in this Report.	Margin in favor of Managers.
1866.....	2.885	2.683	0.202 cents.
1867.....	2.717	2.510	0.207 cents.
1868.....	2.450	2.063	0.188 cents.
1869.....	2.388	2.259	0.129 cents.
1870.....	2.639	1.909	0.130 cents.
1871.....	2.317	2.0734	0.243 cents.
1872.....	1.900	1.790	0.110 cents.

Equal to an average margin in seven years, in favor  
of Managers of..... 0.1727 .

Now the total tonnage carried one mile during these seven years over the P. & E. road was 1,087,298,752, and this at 0.1727 cents per ton, equals \$1,877,764.94, which is the value of the margin allowed when applying in this Report to the P. & E. tonnage the average Reading rates. It must not be inferred from this that the P. & E. Company are not entitled to this additional \$1,877,764.94; the table is given simply as an evidence of the moderation exercised in getting up this Report.

The items needing explanation in the Treasurer's reports, and the margin allowed to the Managers when applying the Reading rates for freight to the P. & E. tonnage, amounting in the aggregate to nearly three millions of dollars more, are not included in the above, because they are as yet not so much of an actual as a hypothetical claim, the validity of which can only be substantiated by an examination of the books and accounts of the Managers.

After omitting the interest included in the above general summary, the following table shows what proportion of the claim arose in each of the years from 1865 to 1872 inclusive: for the sake of brevity, the items are referred to by the numerals attached to them in the general summary,—

	Item 1.	Item 2.	Item 3.	Item 4.	Item 5.	Total.

In September of 1867, the Managers settled a claim against the P. & E. Company, amounting to \$1,671,292.56 by delivering to the claimants 18,000 shares of Common Stock of the P. & E. Company, and gave as a reason for such a settlement, that the P. & E. Company had not the funds wherewith to pay the claim. An examination, however, of the above table will show, that at the time of the settlement of this claim, the *claimants* owed the P. & E. Company sums much in excess of the amount of their settled claim against the P. & E. Company. As regards this claim, even the Managers profess to have been staggered by it, and according to their own statements, hesitated a long time before being convinced that it was just. This, and the fact that the Managers have declined to give your Committee the items of that large claim, induce your Committee to recommend that the grounds of this claim shall be thoroughly investigated. But apart from it being proper or improper, there is hardly a doubt but that the Lessees have no right whatever to the 18,000 shares paid to settle the claim.

In 1865 the Legislature of the State authorized the Managers to issue three millions of dollars (\$3,000,000) of 7 per cent. 3d Mortgage Bonds with privilege to the holders of converting them into 8 per cent. preferred P. & E. stock, should the interest not be paid when it fell due. The bonds were sold to the Pennsylvania Central Railroad Company, at a discount of \$750,000, and on or about January 1st, 1868, the Managers converted \$2,400,000 of them into an 8 per cent. Preferred Stock for the benefit of the Lessees of the P. & E. road, on the plea that the earnings of the P. & E. road did not suffice to meet the interest due. Now, not only were the *P. & E. funds in the hands of the Lessees more than sufficient to meet the interest, but they were more than sufficient to have paid off half the principal of the bonds, —from which it is evident the Lessees have no shadow of right to the 48,000 shares preferred stock paid to them in settlement of the 7 per cent. 3d Mortgage bonds.* It seems highly improbable that the shrewd business men which comprised the Board of Pennsylvania Railroad Directors, would have hastened to secure the preferred stock in lieu of the bonds, had they not felt very confident that the business of the P. & E. road would amply suffice to pay them an 8 per cent. dividend regularly on their preferred stock. They were not likely to relinquish an assured lien upon the P. & E. road without getting in exchange a security known to them to be fully as valuable; and although none of the subsequent reports submitted to the P. & E. Stockholders include by name this 8 per cent. dividend among the disbursements, yet there is reason to believe it was comprised in certain large payments made under the vague title of "Contingencies," &c., the items of which your Committee have endeavored in vain to procure from the Managers of the P. & E. road, but who have not been equally reticent when questioned directly as to the payment or non-payment of the dividend.

Directors of the Company have not hesitated to urge on members of your Committee the propriety of suppressing this report, on the ground that its publication and the action likely to follow thereon would lessen the value of Pennsylvania Railroad shares, and thus make the City (a large holder of the stock) suffer a heavy loss. The speciousness of such reasoning is evident enough, for this Report

is either correct or incorrect. If incorrect, there will be ample and immediate evidence produced to prove it so, and thus avert the anticipated depreciation in the value of Pennsylvania Railroad stock; while, if correct (of which there can be no reasonable doubt), the large share the City has in the claim of the P. & E. Company on the Pennsylvania Railroad Company will more than compensate for any temporary loss the City may experience in its Pennsylvania Railroad stock; moreover, it will be argued with much reason, that if the Pennsylvania Railroad stock is valuable, in spite of those who manage the Pennsylvania road, how much more valuable is it likely to become should the road fall into the hands of others who will be incapable of committing such questionable acts as those which from 1865 to 1872 have marked the management of the Philadelphia & Erie Road!

By the terms of the original Lease, the Lessees were obliged to pay the P. & E. Company 30 per cent. of the gross receipts, and by the terms of the modified lease, the Lessees were required to pay to the P. & E. Company all the receipts over and above what were required to meet the interest on the bonds and the running expenses of the P. & E. road. That these conditions were not complied with the statements in this Report render only too apparent; hence, even if the acceptance by the P. & E. Stockholders of the modified lease could be construed into an endorsement by them of all that had been done under the original lease, the violation of the conditions of the modified lease by the lessees suffices to render the lease either in its original or modified form null and void. The modified lease having been consummated through the influence of stock held by the Lessees to which they had no right, it is a question for the Courts to decide whether or not the modified lease was at any time a valid instrument.

In view of all these facts, your Committee respectfully and earnestly recommend that immediate action be taken looking to the reinstatement of the P. & E. Stockholders into the uncontrolled possession of their property, to the recovery of the sum due by the Lessees to the P. & E. Stockholders, to the cancellation of the Common and Preferred stock obtained from the P. & E. Company by the Lessees under false representations, and to the punishment

of those who have been instrumental either as principals or accomplices in the wrongs perpetrated on the Philadelphia & Erie Stockholders.

*And whereas*, It is manifestly both the duty and interest, *as well of the said Lessees as of the City*, to legally inquire into the matters hereinbefore stated.

*Therefore, be it Resolved by the Select and Common Councils of the City of Philadelphia*, That the City Solicitor be directed to institute such legal proceedings against the Lessees of the Philadelphia and Erie Railroad as will compel said Lessees to properly account to the City of Philadelphia, as a Stockholder, for all moneys received and expended by them, as such Lessees; and if the terms of the lease have been in any manner violated, to take such further action as may be necessary for the reinstatement of the City, as one of the Philadelphia and Erie Stockholders, into the uncontrolled possession of her property, and for the recovery by the said City, of any sum or sums of money found due by the said Lessees on the stock owned by the City; and, if necessary, such further and other steps as will fully protect the City in her rights as a Stockholder on the Philadelphia and Erie Railroad."

# APPENDIX No. 54.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the communication and resolution of the Commissioners of Fairmount Park, proposing to dedicate to public use portions of the boundary avenue west of Belmont avenue, respectfully report, that the boundary of the Park has been legally established west of Belmont avenue, and the Park Commissioners have acquired title for the City by negotiations with the owners of property.

The act of Assembly provides that Councils of the City of Philadelphia shall, under the supervision of the Department of Surveys, lay out an avenue as one of the streets of the City, of the width of not less than one hundred feet, as a boundary of the Park on the southwest, west and northwest sides thereof.

The parts proposed to be dedicated are in accordance with the revised plan of the streets adjoining the Park, a part of which is now confirmed ; this dedication with the dedication of Jesse George west of George's run, will give to the public a complete thoroughfare around the Park, from Fifty-second street to Belmont avenue, as soon as it is put in travelling condition.

We recommend the adoption of the accompanying resolution, accepting the dedication by the City Councils.

## RESOLUTION

Accepting portions of Elm avenue and other streets, in the Twenty-fourth Ward as public City streets.

Whereas, The Commissioners of Fairmount Park have

made the offer contained in the following resolution adopted by them on the 26th day of April, A. D. 1873, viz.:

*Resolved*, That this board offer to City Councils for their acceptance as boundary avenues of the width of one hundred feet, Elm avenue, from Fifty-second street to George's avenue, and that portion of Highland avenue, between George's avenue and Belmont avenue, and on their accepting the same, the president is hereby authorized and directed to sign properly attested deeds of dedication for those portions of said streets, said deeds to be filed in the Department of Surveys.

*And whereas*, The act of Assembly approved April 14th, 1868, provides for the laying out said avenue as one of the streets of the City, of the width of not less than one hundred feet, therefore,

*Resolved by the Select and Common Councils of the City of Philadelphia*, That said avenues be and they are hereby accepted as public streets of the City of Philadelphia, in accordance with the plans of the Department of Surveys.

APPENDIX No. 101.

MAYOR'S OFFICE, OF THE  
CITY OF PHILADELPHIA, *October 30, 1873.*

To the Common Council  
of the City of Philadelphia :

GENTLEMEN:—I return herewith, without my approval, “ An Ordinance granting permission to Benjamin R. Smith and T. Campbell Harris, to erect a one-story timber storehouse.

For the purpose of protecting the lives and property of citizens from loss by fire, Councils, by Ordinance approved April 11th, 1863, made it unlawful to erect or construct within the built up portions of the City, any wooden framed, brick paned, or other building whatsoever, the walls whereof are not composed wholly of incombustible materials ; and as the building, permission to erect which is granted by the Ordinance returned to you, would be in a thickly populated locality, and in close proximity to the wharves and shipping, I cannot assent to it.

Special legislation deranging and annulling the operation of established law should at all times be avoided, and this is subversive of the objects of the above mentioned Ordinance, and dangerous to the property and lives of the residents of the vicinity ; and further, it establishes a precedent, which, in view of the terrible calamities from extensive conflagrations that have befallen our sister cities, should be carefully guarded against, for if followed, it would destroy the greatest safeguard against, and preventive of, similar disasters in our City.

PHILADELPHIA, *October 30, 1873.*

GEO. W. HALL, ESQ.,

DEAR SIR:—I have made a number of fruitless efforts to obtain a hearing before the Railroad Committee in refer-

ence to the false statements and charges made against me in connection with the Philadelphia and Erie report, prepared by me for, and by authority of the Railroad Committee of City Councils, appointed to inquire into the non-payment of dividends by the Philadelphia and Erie Railroad Company; I therefore beg to make this request through you to City Councils, that a Committee of Councils be appointed to investigate these charges.

Respectfully,

WM. HOWARD.

## RESOLUTION

To authorize a certain transfer in the annual appropriation to the Receiver of Taxes for the year 1873.

*Resolved by the Select and Common Councils of the City of Philadelphia*, That the City Controller be authorized and directed to make the following transfer in an Ordinance to make an appropriation to the Receiver of Taxes for the year 1873: From Item 4, for advertising delinquent tax payers, five hundred and sixty-three dollars and ninety cents; to Item 6, for printing bills, &c.

# APPENDIX No. 109.

To the Select and Common Councils  
of the City of Philadelphia:

GENTLEMEN:—The Committee on Finance respectfully report, that they have considered resolution requesting to be informed “why City warrants are not paid on presentation, when there is remaining in the City Treasury three

million six hundred and ninety-seven thousand three hundred and forty-nine dollars and eighty-three cents, as per last report," and respectfully submit to Councils the following, viz.:

October 30th, 1873. Cash in City Treasury.....	\$2,835,011
Appropriated as follows:	
Public Building fund, which cannot be taken for any other purpose.....	\$325,000
Amount required for payment of interest January 1st, 1874.....	1,800,000
Amount required for sinking fund, December 31st, 1873.....	175,000
	<hr/> 2,300,000
	<hr/> \$535,011

Leaving five hundred and thirty-five thousand and eleven dollars for payment of warrants of twenty-five dollars and less; also for payment of all loan warrants which are payable on demand. Owing to the present stringency in the money market our citizens have been unable to pay their taxes and other dues to the City, and hence receipts have fallen off, thus preventing the City Treasurer from continuing the payment of warrants on demand. It is proper to state that the monthly and quarterly salaries of school teachers and all other employees of the City, payable up to the first of October, as well as all other demands to within the past ten days, have been paid promptly, and had it not been for the present unfortunate condition of the country's finances, the City Treasurer would still be paying all demands.

The Committee respectfully submit the above, and request the passage of the annexed resolution.

## AN ORDINANCE

To create a loan for a House of Correction.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Mayor of Philadelphia be and he is hereby authorized to borrow at no less than par on the credit of the City, from time to time, for a House of Correction, four hundred and fifty thousand dollars, for which interest not to exceed the rate of six per cent. per annum shall be paid half yearly on the first days of January and July, at the office of the City Treasurer. The principal of said loan shall be payable and paid at the expiration of thirty years from the date of the same, and not before, without the consent of the holders thereof; and the certificates therefor, in the usual form of the certificates of City loan, shall be issued in such amounts as the lenders may require, but for not less amounts than fifty dollars, and not for any other fractional part of one hundred dollars, or if required in amounts of five hundred or one thousand dollars; and it shall be expressed in said certificates that

the loan therein mentioned and the interest thereof are payable free from all taxes.

SECT. 2. Whenever any loan shall be made by virtue thereof, there shall be by force of this Ordinance annually appropriated out of the income of the corporate estates and from the sum raised by taxation, a sum sufficient to pay the interest on said certificates; and the further sum of three-tenths of one per centum on the par value of such certificates so issued shall be appropriated quarterly out of said income and taxes to a sinking fund, which fund and its accumulations are hereby specially pledged for the redemption and payment of said certificates.

## RESOLUTION

DEPARTMENT FOR SUPPLYING THE CITY WITH WATER,  
PHILADELPHIA, *November 6, 1873.*

To the Presidents and Members of the Select and  
Common Councils of the City of Philadelphia :

GENTLEMEN :—In answer to your resolution of inquiry, the Water Department will co-operate by prosecuting work through the winter season as far as practicable, and would suggest a uniform rate of wages, so as not to lure men from private pursuits. For the means necessary to this end, will ask from time to time as the emergency arises.

Yours, very respectfully,

WM. H. McFADDEN,

OFFICE OF THE CHIEF ENGINEER AND SURVEYOR,  
PHILADELPHIA, *November 6, 1873.*

HON. A. WILSON HENSZEY,  
President of Common Council :

DEAR SIR :—I beg leave to present the following report in response to a resolution of City Councils, directing the Chief Engineer and Surveyor to inform Councils, if any, what work may be prosecuted by the City during the winter months, and what action of Councils is necessary in the premises.

In the Engineering Department there is but little to report, as most of the City work upon which our estimates are made, are performed by the Highway Department, to which I have made statements on projected work.

In the loan for main sewers approved October 14th, 1872, there are three sewers not yet under contract, which have been delayed principally on account of portions of the streets upon which they are located not being dedicated. They are the West Cohocksink sewer, the Hart creek sewer, and the Thirtieth street sewer.

The obstruction on West Cohocksink sewer will prevent any work being done on it at present. Where there is heavy excavation it can be done advantageously in the winter season, but the construction of sewers can only be proceeded with at such times as the weather will permit.

The excavation on the Hart creek sewer is of such a nature that it cannot be proceeded with except as the sewer progresses; the obstruction from non-opened streets extends but a short distance, so that it might be put under contract, or proceeded with by the Highway Department where obstructions do not exist. But none of it could be made available for drainage until the street is opened and the work completed. The total estimate for this sewer is \$245,000.

The excavation for Thirtieth street sewer is very heavy, part of it through rock, which would bear the sides until spring opens, when the sewer could be proceeded with. This can be put under contract at once, the estimate for the work is \$138,000, more than one-half of which is for excavation, principally rock. I do not know of any other work pertaining to this department that can be made available.

Respectfully submitted,  
SAMUEL L. SMEDLEY,  
*Chief Engineer and Surveyor.*

DEPARTMENT OF MARKETS AND CITY PROPERTY,  
PHILADELPHIA, *November 6, 1873.*

To the Presidents and Members of Select and  
Common Councils of the City of Philadelphia :

GENTLEMEN:—In compliance with a resolution of Select and Common Councils of October 30th, 1873, I was instructed with the other heads of departments, to inform your honorable bodies, if any, and what public work may be prosecuted by the City during the winter months, and what action of Councils would be necessary in the premises, I would state that the City might forward the further im-

provement of the Passyunk Square, in the Twenty-sixth Ward, to such an extent as would require but little work in the spring, as well as the Fair Hill Square, Fifth and Lehigh avenue, in the Nineteenth Ward, the grading of which has been completed with the exception of top soil, provided, that Councils would deemed it necessary to make the appropriation therefor, the cost of which will be about ten thousand (10,000) dollars, which would afford work to a number of persons who are now out of employment. These squares are both situated in rapidly improving neighborhoods, and if said appropriation for the improvement of said squares should be made, it would stimulate private improvements in the neighborhoods to a considerable extent.

Yours, respectfully,

J. H. PUGH,

*Commissioner of Markets and City Property.*

## APPENDIX No. 122.

DEPARTMENT OF HIGHWAYS, BRIDGES, SEWERS, &C.,  
PHILADELPHIA, *November 6, 1873.*

To the Presidents and Members of the Select and  
Common Councils of the City of Philadelphia :

GENTLEMEN:—In reply to your resolution of inquiry in reference to prosecuting public work during the winter, I respectfully inform you that the Department of Highways can, if the necessary appropriation be made, profitably employ at least one thousand men during the moderate weather of the entire month, in doing ordinary repairs, and in opening and grading streets.

The following streets and roads have been authorized and directed by the Legislature to be opened, bridged and graded, and citizens interested therein have already taken measures to compel the department to do the work, but for want of an appropriation to pay for the same, we are unable to proceed, viz. : A new State road to avoid the Philadelphia and Trenton railroad, between Tacony and Bucks

County line, the estimated cost of which will be sixty-thousand (60,000) dollars; also a State road from the southeast corner of Montgomery avenue in Lower Merion Township, Montgomery County, to Belmont avenue, in the City, with a branch road leading to Fairmount Park, the cost estimated at thirty thousand (30,000) dollars; also, by order of Council, an unusual amount of grading in different localities of the City, the greatest amount being on Baltimore avenue and west of Forty-third street, and on the line of the Mill Creek culvert in the Twenty-seventh Ward. I have been informed by the Chief Engineer and Surveyor, that it will be necessary to grade during the winter of 1874, the approaches to the new bridge at South street on the Schuylkill river, he estimates the cost of this at ten thousand (10,000) dollars.

Under a recent Act of Assembly, the grade of Sixth street, from Somerset street to Alleghany avenue, has been changed, and for the public convenience it is necessary to have the grading and paving of that great thoroughfare done as speedily as possible, this work will afford employment, during the winter to many worthy and industrious man, who reside in that locality.

In the Twenty-third Ward a road has recently been laid out from the Welsh road to Blue Grass road, being about one and a half miles in length and will require two bridges to cross streams. The cost of this work has not been estimated, but for the accommodation of the citizens of the Twenty-third Ward should be opened at once. The work of grading will afford employment to many laborers who reside in that vicinity, who otherwise will be idle until the opening of spring.

The opening and grading of Terrace avenue in the Twenty-first Ward, will give employment during the moderate weather of winter to one hundred men.

I am now preparing my estimate for the expenses of the Highway Department for the year 1874, and will ask therein of your honorable bodies, money sufficient to prosecute all the work above specified, believing that the public necessities require it, and at this time can be accomplished at less cost than it can be during busy periods.

In order that the laudable designs of Councils may be carried into effect, it will be necessary to suspend for a time

all laws and Ordinances that prohibit work being done on the highway, during certain months of the year.

All of which is respectfully submitted by yours, &c.,

MAHLON H. DICKINSON,

*Chief Commissioner of Highways.*

## APPENDIX No. 127.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the “ Resolution to revise the curb lines of Girard avenue in the Twenty-fourth Ward,” respectfully report that said avenue is laid down on the City plan of the width of eighty feet, with a width of forty-four feet from curb to curb. From Girard Avenue Bridge to its intersection with Elm avenue at Fortieth street, the whole of the distance on the north side, and about one-half of the distance on the south side is public property, being the unimproved portions of Fairmount Park, and there are no buildings or improvements on the remainder of the distance. Girard Avenue Bridge being one hundred feet wide, as well as Elm avenue and other boundary avenues of the Park, it is highly important that this portion should be at least of that width, particularly as it will of necessity be the main line of approach to the Centennial grounds, and will always be an important avenue in consequence of its being the only main avenue crossing the river between Fairmount Bridge and the Falls of Schuylkill. We return the resolution and recommend its adoption.

## APPENDIX No. 128.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN:—Your Committee on Surveys and Regulations, to whom was referred the petitions for sewers, report that each case has received the examination of the Board of Surveys; from the reports upon which, we find that they are all needful and necessary for the drainage of private properties—a great public benefit in diminishing a number of cross-gutters and reducing the surface drainage. The aggregate of length is six thousand nine hundred and sixty-seven feet, which will cost the City about two thousand five hundred dollars, and the property owners along their lines seventeen thousand two hundred and thirty-nine dollars. We respectfully ask the adoption of the bill herewith submitted for their construction.

## AN ORDINANCE

To authorize the construction of sewers on Tenth, Twenty first, Wright, Chestnut, Buttonwood, Callowhill, Walnut, Davis, Seventeenth, Thirteenth, Dutton, Thirty-second, Pearl, Twenty-third, Clayton and Lorain streets, and on Kensington avenue.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewers, viz.: On Tenth street, from the end of sewer at Master street to the north curb line of Oxford street; on Twenty-first street, from the sewer in Jefferson street southward to Wright street, and thence westward along Wright street to the summit in said Wright street; on Chestnut street, from Thirtieth street to Thirty-second street; on Buttonwood street, from Ninth street to Tenth street; on Callowhill street, from Tenth street to Eleventh street; on Walnut street, from Forty-second street to Forty-third street; on Davis street, from the sewer in Twelfth street to the east curb line of Thirteenth street; on Seventeenth street, from Fairmount avenue to Brown street; on Thirteenth street, from the sewer in Poplar street to the south curb line of Heath street; on Dutton street, from Morris street to Moore street; on Thirty-second street and on Pearl street, from the sewer in Powelton avenue to a point in Pearl street two hundred and fifteen feet west of Thirty-second street; on Twenty-third street, from Virginia street to Clayton street, and on Clayton street, from Twenty-third street to the west curb line of Twenty-second street; on Lorain street, from Buttonwood street to a point thirty-seven feet south of the south line of Spring Garden street; on Kensington avenue, from Fillmore street to sewer in Sergeant street. Said sewers to be built of brick, circular in shape, and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SECT. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewers above designated, and he shall allot the same to the lowest bidders; and it shall be a condition of said contract that the contractor shall accept the sums assessed upon and charged to the properties lying on the lines of said sewers, in manner and form authorized by

Ordinance entitled "An Ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12th, 1866, and supplement thereto, approved February 16th, 1869; any excess over and above said assessment, in addition to that provided for by Ordinance entitled "An Ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes, and legal deductions in the construction of branch sewers," approved April 3d, 1868, to be charged to item (for branch sewers) of annual appropriation made to the Department of Highways for the year 1874: *Provided*, Said excess does not exceed the sum of two thousand five hundred dollars.

## APPENDIX No. 135.

PHILADELPHIA, *November 10, 1873.*

To the Select and Common Councils  
of the City of Philadelphia:

GENTLEMEN:—On October 30th, 1873, I made a request to you through Geo. W. Hall, Esq., that a Committee be appointed to investigate the allegations made against me in connection with the Philadelphia and Erie report, prepared by me for and by authority of the Committee appointed to inquire into the non-payment of dividends by the Philadelphia and Erie Railroad Company.

Up to this time that request has not been acted upon, nevertheless this has not deterred some members of your honorable body from publicly indulging in reflections against me, which, in view of the fact that I was not permitted to be present to defend myself, cannot be deemed either generous or manly, the less so as my application for justice at your hands had yet to be acted upon, and, therefore, every sentiment of honor required that those who were asked to be judges in the case should at least have kept silence until the subject had been finally disposed of, and not hastened to publicly vilify me upon the ex parte statements of my enemies.

I now, with all the emphasis consistent with a due respect to your honorable body, repeat my request for a Committee of investigation.

Very Respectfully,  
WM. HOWARD.

November 13, 1873.

## AN ORDINANCE

Making an appropriation for the settlement and compromise of certain claims of the Schuylkill Navigation Company and others, against the City of Philadelphia.

*Whereas*, Certain suits have been brought against the City of Philadelphia by the President, Managers and Company of the Schuylkill Navigation, and by owners, lessees, masters of and others interested in boats engaged in navigating the river Schuylkill, for injuries resulting to the said plaintiffs respectively, by reason of drawing water from Fairmount pool in the year 1869: *And whereas*, It is proposed that all such claims should be compromised and settled, and the said the President, Managers and Company of the Schuylkill Navigation have agreed that upon the payment to them of the sum of two hundred and twenty-five thousand dollars by the City of Philadelphia, they will release all claim on their part, and indemnify the City from all claims on the part of owners, lessees, masters of, or other persons interested in the said boats, who were injured or claimed to be injured by the said acts of the City, therefore,

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the sum of two hundred and forty thousand dollars be and the same is hereby appropriated as follows, viz.: two hundred and twenty-five thousand dollars for the payment of the said claims to the President, Managers and Company of the Schuylkill Navigation; and fifteen thousand dollars for payment of fees of counsel employed by the said City to defend the said suits.

SECT. 2. That upon the execution and delivery to the City of Philadelphia by the President, Managers and Company of the Schuylkill Navigation, of a deed of release and covenant of indemnity on their part and on the part of the Philadelphia and Reading Railroad Company, of and from all claims on the part of the said companies respectively, and of and from all suits now pending, or in which judgments have been obtained (excepting always such judgments as have been already recovered, and have been paid by the City), and from all claims on the part of said owners, lessees, masters or other persons interested in said boats, for or by reason of the said acts of the said City in drawing

water from Fairmount pool, which said release and covenant shall be first approved by the City Solicitor, the City Solicitor be and he is hereby authorized and directed to draw warrants upon the City Treasurer for the amounts herein appropriated.

DEPARTMENT OF CITY CONTROLLER,  
PHILADELPHIA, *November 10, 1873.*

JOHN BARDSLEY, ESQ.,

Chairman of Finance Committee of Councils:

DEAR SIR:—Yours, containing questions in regard to taxes and their collections, &c., referred to the Sub-Committee, to which answers are requested is before me.

I am glad of the opportunity afforded, in which a full statement can be given in regard to the assessment of taxes, their mode of collection, and the manner of auditing the accounts now in practice by this department. Partial in-

formation has been given to inquirers from time to time, and upon these, various so-called expositions have been made, and editorials written upon the subject of taxes, their mode of collection, audit of accounts, &c., giving such versions in regard to them as they deemed most congenial to their objects, views or judgments; some seem to have forgotten information received, and reiterate statements that they have been informed by this department are at variance with the usage; but no condensed statement, or rather connected statement, has ever been made which embraced the whole routine.

That our system of assessment of taxes is defective, none will deny, and before the establishment of the Board of Revision of Taxes, much just complaint did exist.

The accounts of those years included so many valuations on properties that were exempt, either by special legal enactments, or by limitation, that the amount of the available and collectable assets can only be determined by process of collection. In the current condensed register, now in this department, I find the following properties still carried forward and forming a part of the amount of outstanding taxes of the year 1869, assessed in one Ward, viz.:

City of Philadelphia, Juniper street.....	\$160,000
Friends' Meeting, Twelfth street.....	70,000
Grand Lodge Masons, Broad street.....	150,000
M. E. Church, Filbert street.....	52,500
Presbyterian Church, Arch street.....	90,000
St. Joseph's College, Filbert street.....	34,000
St. John Church, Thirteenth street.....	97,000
U. S. Mint, Chestnut street. ....	198,000

Many exemptions prior to the establishment of the Board of Revision have been duplicated from year to year, until they represent a very large amount falsely. No positive rule, so far as I am aware of, has been adopted to equalize the assessments and compel the correction incident to the duplicated taxes, and change of ownership. The most difficult of municipal affairs seems to be the equalization of the assessments or mode of assessments. I am not prepared to offer any suggestions, but I think a more reliable mode, especially in location by metes and bounds might be arrived at, and as there is now to be a change in assessors, a con-

ference of the Board of Revision, Receiver of Taxes, and Collector of Delinquent Taxes, with a Committee of Councils and the assessors might be profitable.

Prior to the establishment of the Board of Revision, all properties, whether exempt or not, seems to have been placed upon the duplicates, which have not been properly proven, swelling the amounts upon which taxation was based to a very large sum beyond the power or right of collection. The values of properties so exempted, and the allowances made by the old City Commissioners, do not appear to have been forwarded to this Department, nor credited in the accounts, consequently the statements of the outstanding taxes as represented on the books in this department are for the full amount on the duplicates, less only the amounts actually paid into the treasury, and the allowance for prompt payment. Thus in the assessments from consolidation for a long period, this system has obtained many of the exempt and unknown properties being carried forward from year to year, would in a decade, represent ten times their value in the aggregate of outstanding taxes. By a casual examination of the condensed register for the year 1871, and a prior period of five years only, I find it contains assessments of church property to the amount of one and a quarter millions of dollars in valuation; city and school properties to the amount of one million one hundred thousand dollars; charitable institutions, a half million; other exempt properties, a quarter million; and properties so indefinitely described and the ownership unknown, that no reliable liens or claims could be entered against them with any prospect of collection, amounting to nearly two millions of dollars in assessed value. These unknown, seem to be duplicated from year to year, in the accounts or registers, and in a series of years, present such a formidable amount in figures as taxes outstanding, that might well call forth exclamations were the facts not known, therefore, no reliable amount can be stated as available or collectable. This department has asked Councils for power to discharge from the accounts the accumulations of exempt and duplicate assessments, as well as those of over five years' standing, which not having been granted, they remain in the aggregate of outstanding taxes on the books of this department, and to the view of

many, without explanation, present the formidable array of figures, as the amount of outstanding taxes represented by the Controller of 1869, as to call attention thereto, which was not then, nor has been explained fully. In the year 1872, when I assumed the duties of Controller for the present term, the system of having triplicates in this department (being part of the system of better keeping the accounts of the City of Philadelphia, reported by me to Council Committee on Retrenchment and Reform, and to be found in the Appendix to Common Council, Vol. II., for the year 1868, page 364, &c.), was first inaugurated. The full working of the present system can be seen in this office in the audit of the twenty-nine Wards, for the year 1872. In the aggregate of ten million three hundred and forty thousand dollars, the only want of balance is ninety-one cents, which occurs by the additions of fractions on the duplicates. I would here suggest that the condensed register be made only once in three years; my reasons are, that in copying, the same uncollectable amounts are brought forward, year after year, and recharged to the Collector, being a repetition of unavailable assets, entailing unnecessary expense, and making duplicates of the amounts. The present condensed register, contains the amount chargeable to the Collector for periods prior to 1872; the register of 1872, contains the amounts of that year; the register of 1873 and 1874, will contain the amounts unpaid for those years, this would end the term of the present Collector, then let a condensed register be made from the former registers of three years and former condensed register, and you have at once, the amount chargeable to the new Collector, in one book and placed in his hands. The amounts on the register of charges for taxes due and payable to the City are made up as follows: to the amount of taxes due and payable by the assessment, there is added five per cent., the penalty of non-payment, with fifteen cents for advertising, provided the amount is not charged more than once in a Ward, but if the same party owns property in other Wards, he is charged with fifteen cents in each Ward; these amounts are added together and charged upon the register, and when collected, the interest on the whole is collected from the time of registry to the date of payment and returned to the City.

The Collector's lawful charge payable by the City, and the only one allowed in settlement is five per cent. on the amount collected and returned to the treasury. The accounts of Mr. Hill have been carefully examined, and he charged with every item collected by him; the balances on the register are in nearly all cases accounted for or carried forward in the new register and charged to the present Collector. The amounts found collected have been accurately compared with the Treasurer's receipts and agree, and no default is known in his accounts, a statement of the same is on file in this department.

Your 3d question, is the method of auditing the accounts in detail?

In this connection I will trace the system now in practice in this department, from the time of assessment to the discharge of Collector of Delinquent Taxes. The assessment books are made out from assessor's returns under the charge of the Board of Revision of Taxes, and correct copies by them called triplicates are also made of them. The original is given to the Receiver of Taxes, and the copy or triplicate is delivered to the City Controller: as the taxes are collected by the Receiver, he forwards daily to this office, an account of each tax collected, with the page of his duplicate, the name in which it is assessed, the location of the property and the amount paid, the amount allowed for prompt payment, and the allowance or change if any made by the Board of Revision; these returns are sworn or affirmed to as having been paid to the Treasurer, and are compared with the Treasurer's returns to this department; all these are checked up separately on the triplicate in this office, and at the end of the year the amounts remaining unpaid are copied off by the Tax Department into the register with five per cent., and cost of advertising added. This register is then compared with the balances remaining unchecked on the triplicates in this department, and if any errors exist they are at once traced up and corrected, thus insuring the registry of all unpaid taxes and correctness in the accounts. This register is then handed to the Collector of Outstanding Taxes, he in turn makes returns of his collections semi-monthly as required by law, and also gives the name, location and amount of each tax collected, together with the allowances if any, made by the

Board of Revision; these are all checked off on the registers in this office, the liens entered during the term are to be recorded, and at the end of his term a full statement made, showing the amount placed in his charge, the amounts paid, allowed, discharged from any cause, and the balance carried forward to new Collector, this completes the full audit. [The accounts for 1872 have been audited, and to those interested in the system, and who desire to see the working of the same, I give a cordial invitation to call and examine and see for themselves]; but a period should be allowed to the incoming Collector to ascertain if any errors have occurred by outside Collectors of the prior term; if none are found, the audit is closed, and under a special resolution of Councils the parties are discharged.

Question 4th. Has John L. Hill always complied with all the requirements of the Act of Assembly so far as refers to your department, and please state the requirements?

The only requirements in the Act of Assembly to be performed by the Collector of Delinquent Taxes to this department is contained in Sect. 3d of the Act, viz.: "The said Collector shall make returns of his collections under oath to the City Treasurer once in every two weeks and take triplicate receipts therefor, and shall deposit with the City Controller a copy of said return and one receipt." This is the extent of his legal accountability to this department. The actual course pursued by him to this office was not only to make the returns, and deposit the receipt as required by law, but in addition he has furnished a detailed statement of the name of each person paying, the amount paid, the location in the Ward, and the year for which the tax was paid, and affirm to their correctness, and that he has paid the same to the City Treasurer.

Question 5th. Explain in detail how and in what manner the City is protected from loss through Receiver of Taxes or Collector of Delinquent Taxes, either by defaulting clerks or from any other causes, and state if within your knowledge whether the City has ever lost any money from such causes in the Tax Department?

The view I have always held in regard to the accountability contained in the foregoing question, and which I have always carried out, is, to hold the principals and their sureties responsible for each and every deficiency, whether

through the clerks or others; and the principals must look to their clerks and their sureties for all errors or omissions shown, and further I do not know of any case during my term in which the City has lost any money from such causes; defalcations on the part of clerks and outside collectors may have existed but in every instance during my term where errors have come to light before being legally discharged I have charged the deficiency to the principal and it has been paid to the City.

The 6th question is answered in the first portion of this report.

Question 7th. State if it is not your duty, under the law, to audit and approve the accounts of each and every department of the City whether created by Act of Assembly or by Councils, and have you not always done so whether specially directed to do so or not?

It is one of the legal powers and the duty of the City Controller to audit, settle and determine the accounts of each and every department in which moneys are received or disbursed and has always been performed on all accounts presented and requiring audit.

The 8th question is also answered in a former part of this report.

Question 9th. Do Councils ever, or did they ever within your knowledge release the securities of any receiving or disbursing officer connected directly or indirectly with any part of the City government without your department first certifying there is no default in the accounts?

All Ordinances or Resolutions of Councils directing the City Solicitor to enter satisfaction on official bonds, contain the following clause: *Provided*, The City Controller first certifies that the accounts have been audited and there is no default; I know of no instance of the release of the sureties of any officer whether disbursing or collecting officer, or of those on whom such responsibility do not exist but who are merely agents of officers, that the Ordinance or resolution of Councils have not been fully complied with by this department.

Question 10th. Has it ever been the practice of your department, or is it required either by law or Ordinance that you should make public notice of the audit of any of the accounts of the City officials?

Prior to the year 1864, the law provided that all the accounts of the City showing the sources from whence moneys were received, and how they were disbursed and the particulars thereof in detail should be published by the City Controller under oath, in two newspapers of the City. This was repealed by Act of Assembly, approved the 20th of May, 1864, since which time no audit has been published, nor do I know of any law prescribing the mode of audit.

Question 11th. Please give the Committee such other information touching the Department of Collector of Delinquent Taxes, or the administration thereof as has come within the knowledge of your department, as to whether it has been conducted according to law as well as to the interest of the City?

I have no official knowledge of the legal administration of the office of Collector of Delinquent Taxes, except such as are in connection with this department, in all of which the law has been fully complied with. The detail of returns and various other minutia furnished voluntarily by Mr. Hill, has vastly assisted in the compilation of accounts and facilitated this department in making the final audit. I feel well assured that a large amount of taxes have been collected and paid into the City Treasury, under the administration of Mr. Hill, which under former laws would have been lost by limitation, and in many instances taxes have been collected and paid into the City, where the costs of suits paid by him exceeded not only the fees but the amount collected: In this connection allow me to refer to some of the legal provisions in the Act of Assembly, which greatly retards, and in some cases destroys the power of collecting some of the outstanding taxes.

The Act of March 24th, 1870, under which the Collector of Delinquent Taxes is appointed, authorizes him to proceed to collect the taxes either out of the personal or real estate of the delinquent owner, and for that purpose to procure an *accurate* description of the real estate upon which the said taxes have been assessed: *Provided, however,* That in all cases where the amount of tax due shall not exceed ten dollars, he shall not expose the said real estate to sale, but keep the *judgment* against the same *revived*, &c. *And it further provides,* That in all cases where the

property sold for any reason whatever, does not produce the money, that *no costs* shall be paid to either the Prothonotary or the Sheriff. This Act, while it was intended to afford a very summary remedy for collecting the unpaid taxes, and to thoroughly clear up the records, failed to accomplish its purpose by not providing the means to carry it into effect. The compensation allowed for procuring an accurate description of property being only *one dollar*, it seems impossible to get competent persons to procure such descriptions for that sum, and wait for even that until it is realized from the sale. The assessors seldom give or return such description of the property as would give a title under a sale, hence even in cases where liens have been filed, much more labor has to be bestowed to procure the necessary description than the sum named would pay for, besides the persons making those are not willing to wait and take the risk of having this small sum paid out of the sale of the property. Again, neither the Sheriff nor the Prothonotary are willing to issue the necessary proceedings, and pay the required advertising and other expenses, and take the risk of collecting their fees out of sales made.

These two provisions have necessarily prevented and will prevent the Collector from filing many liens. The clamor of the people against proceeding with sales is very great, because they say the claim is good, and the City can afford to wait, and the poor should not be distressed.

The mode or description in the assessments, especially in the sparsely built or rural portions of the City, precludes the possibility of getting such descriptions as are necessary to file liens from, and in a number of cases, it would be clearly injurious to the interest of the City, where the assessments are so vague that the proper officers are utterly unable to locate them; irregular assessments so made, remain unpaid for want of opportunity to collect them from the owner personally or from the tenant, and when placed in the hands of the Solicitor, he would in many instances no doubt decide to file liens, and sell the land would not bring the money, or if it did, that the City would be liable in damages for sale of lands not assessed. Some such cases I believe have been tried, and in all cases have been decided by the courts and juries against the City, some on the ground that the land was not assessed with the tax, and

other that the owners of the land had attempted to pay their taxes and that the City did not afford them the opportunity of correct payment, and therefor, she shall suffer the loss and not the taxpayer, who has endeavored to discharge his debt.

I might stop here, but I am assured there is an evident leaning of the courts in favor of this view, and thereby prevent the collection of taxes in the rural Wards, which if fully described in the assessments might be collected. Various speculative land associations in the country have divided and disposed of thousands of acres in small lots to different owners, a large portion of them are assessed at low rates, and in many instances the aggregate of the taxes for a term of five years would not probably exceed ten dollars, and cannot, under the law, be collected by the sale of the land. Many lots are assessed as *unknown*, a favorite phrase in the duplicates of the rural Wards, and others in names which do not and never did indicate the owner. The costs of obtaining judgment in these cases, even if the Surveyor, Sheriff, Prothonotary, and Collector were willing to contribute each his part beyond that named in the law, the costs would be double the amount of the sale or even the assessments, and time, labor and money invested to no effect, and the incurring expenses to be refunded at some indefinite time in the collection of taxes, all contributing to the accumulation of the amount of unpaid taxes on the register, so that the City places itself in the position of one whose attempts to better his condition, has resulted in positive loss instead of gain.

The various special Acts of Assembly exempting property from taxation, have been increasing with fearful rapidity of late years, and some not only exempt lands from present taxation, but are retroactive and bar all efforts to clear the registers of taxes justly due, and some are only made uncollectable, because of the skill with which the special exemptions have been obtained.

I have, I believe, answered all your inquiries, and presented you with some of the workings of the Act of Assembly upon the collection of delinquent taxes, the remedy for such defects if they should be so considered, I leave for your consideration. Respectfully submitted.

Respectfully yours,

S. P. HANCOCK,  
City Controller.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the applications for sewers, report that each case has received the examination of the Board of Surveyors, who approve their construction as recommended by them, with the view to accommodate the constantly increasing demands for private drainage, and the removal of objectionable cross gutters at street intersections and other obstructions in the surface drainage. The length, in the aggregate of the sewers, is four thousand one hundred and seventy-seven feet, at a cost to the City not exceeding two thousand eight hundred and seventy-five dollars, and to the property owners upon their lines eight thousand six hundred and thirty-eight dollars ; a bill for their construction is herewith submitted, for which we respectfully ask your approval.

## AN ORDINANCE

To authorize the construction of sewers on Fourth, McIlvain, Queen, Third, Thirty-second, Forty-first, Fifteenth, Eighteenth, Carlisle streets, and Chester avenue.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewers, viz.: On Fourth street, from Trout street to the south side of Washington place ; on McIlvain street, from Fifth street to Sixth street ; on Queen street, from the sewer at Second street to the west curb line of Third street ; on Third street, from the south side of South street to the

south line of Bainbridge street; on Thirty-second street, from Pearl street to Hamilton street; on Forty first street, from a point one hundred and thirty feet south of Chestnut street to a point one hundred feet southward from Sansom street; on Fifteenth street, from the sewer in Cambridge street to the south curb line of Girard avenue; on Eighteenth street, from the sewer in Columbia avenue to the south curb line of Montgomery street; on Carlisle street, from the sewer in Thompson street to the north curb line of Girard avenue; and on Chester avenue, from Baltimore avenue to Forty third street. Said sewers to be built of brick, circular in shape, and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SECT. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewers above designated, and he shall allot the same to the lowest bidders, and it shall be a condition of said contract that the contractor shall accept the sums assessed upon and charged to the properties lying on the lines of said sewers in manner and form authorized by Ordinance entitled "An Ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12th, 1866, and supplement thereto, approved February 16th, 1869; any excess over and above said assessment, in addition to that provided for by Ordinance entitled "An Ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes and legal deductions in the constructions of branch sewers," approved April 3d, 1868, to be charged to Item (for branch sewers) of annual appropriation made to the Department of Highways for the year 1874: *Provided*, Said excess shall not exceed two thousand eight hundred and seventy-five (2,875) dollars.

## APPENDIX No. 178.

To the Select and Common Councils  
of the City of Philadelphia:

GENTLEMEN:—Your Committee on Surveys and Regulations, to whom was referred the resolution to construct a

culvert on Girard avenue in the Twenty-fourth Ward, respectfully report that it is highly important that Girard avenue should be paved at an early day to provide an approach to the Centennial grounds. A contract for paving has been made sometime since, but cannot be carried out until the sewer is laid in the street, a sewer being required in the street to drain Centennial buildings, besides property outside the Park. This sewer has been approved by the Board of Surveyors from Forty-first street, on Girard avenue, to Thirty-eighth street, where it turns southward and empties into Mantua creek sewer, now in course of construction. The total cost will be \$100,000, which sum is included for this purpose in the sewer loan now before the Finance Committee. That part which is to be laid in Girard avenue, where the paving is delayed, will only cost \$25,000. In order that the work can be done without waiting for the passage of a loan, we have made search for funds which might be made available for immediate use, and find that \$65,000, which was included in the loan of October 14th, 1872 (Ord., p. 435), for the construction of the West Cohocksink sewer extension, cannot be used for that purpose until the streets are all opened upon which it is to be built. We therefore recommend that \$25,000 be appropriated out of said loan for the Girard avenue sewer, the sum to be reimbursed for the West Cohocksink sewer out of a new sewer loan. We present the annexed Ordinance and recommend its adoption.

## AN ORDINANCE

To authorize the construction of Girard avenue sewer on Girard and Elm avenues, in the Twenty-fourth Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Chief Engineer and Surveyor, and the Chief Commissioner of Highways are

hereby authorized to enter into contract with one or more competent mechanics for the construction of the Girard avenue sewer, from Thirty-eighth to Forty-first street, and on Elm avenue, from Fortieth to Forty-first street.

SECT. 2. That it shall be the duty of the Chief Engineer and Surveyor to prepare plans and specifications for the said sewer, and that the contract entered into for the construction thereof shall be in accordance with such plans and specifications.

SECT. 3. That before entering into the said contract, the Chief Engineer and Surveyor, and the Chief Commissioner of Highways, shall cause advertisement to be made for sealed proposals for the construction of the sewer, and that a contract therefor shall be awarded by them to the lowest and best bidder; and no contract shall be binding on the City of Philadelphia until the same shall have been approved by these Councils.

SECT. 4. That no proposal for the construction of the said sewer shall be considered by the said Chief Engineer and Surveyor and Chief Commissioner of Highways, unless accompanied by an engagement in writing, from two or more sufficient sureties, guaranteeing the faithful execution of the contract, in case such proposal be accepted.

SECT. 5. That as the completion of the said sewer shall progress, there shall be assessed and charged upon the properties in front of which the same shall be completed, the sum of one dollar and fifty cents for each lineal foot of the front of the said properties.

SECT. 6. That it shall be a condition of such contract, that the contractor shall accept the sums so assessed and charged under the foregoing section of this Ordinance, in part payment of his contract price, and that he shall collect the same at his own cost; and the better to enable him so to do, he may use the name of the City of Philadelphia, and employ all legal remedies or proceedings, whether of lien or otherwise, to which the said City may be competent.

SECT. 7. That payments may be made while the work of constructing the sewer is in progress, by the Chief Engineer and Surveyor, in warrants upon the City Treasurer, charged to a loan for said purpose, approved October 14th, 1872; said payments, in all cases, to be made upon a certificate of the Chief Engineer and Surveyor, estimating the

amount of work done: *Provided*, That for all current estimates, no payment shall exceed four-fifths of the money meritoriously earned under said contract, after deducting the ratable proportion of the assessments referred to in Section 5 of this Ordinance; said payments to be made in the bonds of the City of Philadelphia, or in cash, at the discretion of the Mayor.

SECT. 8. Satisfactory evidence shall be furnished by the contractor to the Chief Engineer and Surveyor that full payment has been made for all labor done and materials furnished, previously to drawing a warrant for the final estimate of work done by virtue of this Ordinance, and the Chief Engineer and Surveyor shall require full and entire payment by the contractor of all labor and materials on account of such work; and the said Chief Engineer and Surveyor shall give one month's notice, in two daily papers, of the time at which the final estimate will be paid: *Provided*, That no part of said sewer shall be constructed on streets not opened as public highways.

SECT. 9. That the sum of twenty-five thousand (25,000) dollars of the proceeds of loan created by Ordinance, approved October 14th, 1872, be and the same is hereby appropriated to the Department of Surveys, for the construction of the said Girard avenue sewer. Warrants therefor to be drawn by the Chief Engineer and Surveyor under existing laws.

## APPENDIX No. 179.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the accompanying Ordinance to pay the American Dredging Company for rebuilding main sluice of the meadow drainage channel, respectfully report that a break occurred in this sluice after it had been completed by the contractors in accordance with the plans and specifications. In a few hours the whole work was undermined by the force of the tides, and the earth washed out fifteen feet below the foundations. If repairs had not

been made at once, the whole lower section of the city thereby protected, would have been overflowed, and immense damage to property would have ensued. The emergency required prompt action, and as Councils had adjourned for the summer vacation, the Chief Engineer and Surveyor directed the work done.

The nature of break and the work required to repair it, could not be determined in advance, and it was impossible to make a specific contract. The work has been done substantially and at proper rates. In view of the great loss which has been averted by this expediture, we recommend that the bill should be paid; at the time of order there was an unexpended appropriation of \$15,000 for this work which has been transferred to other items, and is not now available. We recommend that an item to pay \$6,709.58, the amount of the bill for said work, be introduced in the annual appropriation to the Highway Department for the year 1874.

To the Select and Common Councils  
of the City of Philadelphia:

GENTLEMEN:—Your Committee on Surveys and Regulations, to whom was referred the accompanying resolution, directing a revision of grades of Fiftieth and Aspen streets in the Twenty-fourth Ward, report that they are advised by the Board of Surveys, that there are some twelve or fifteen houses, now erected, that would be almost ruined by the grade as now fixed, the board approves the revision as directed in the resolution, as it would conform more

nearly with the present surface. We return the resolution referred, and respectfully ask its adoption.

## APPENDIX No. 181.

To the Select and Common Councils  
of the City of Philadelphia:

GENTLEMEN:—Your Committee on Surveys and Regulations, to whom was referred the "Resolution relative to Huron street, from Lancaster avenue to Forty-second street," report that from information received from the Board of Surveyors, they do not approve the striking of Huron street from the City plan, as it would be a great injustice to both the owners of property on said street, and also to the public generally. This street is now opened a distance of about eight squares east and west from Forty-second street, and only requires the opening of that portion between Forty-second street and Lancaster avenue, a distance of only one hundred and forty-feet, to make the same

a continuous street from Thirty-fifth to Fifty-first street, we submit a resolution, and respectfully ask its adoption.

# RESOLUTION

To revise the grades upon Rubicam lane and Wisteria avenue, in the Twenty-second Ward.

*Resolved by the Select and Common Councils of the City of Philadelphia,* That the Department of Surveys be and is hereby authorized and directed to revise the grades upon Rubicam lane and Wisteria avenue in the Twenty-second Ward, the cost of said revision to be taken out of Item 33 of appropriation to the Department of Surveys for the year 1873.

## APPENDIX No. 183.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the “Resolutions to authorize the preparation of plans in duplicate of a portion of the Twenty-second Ward,” report that from information received from the Board of Surveyors, are of the opinion that the improvements contemplated in that direction render it highly necessary that a section of survey should be extended and lines and grades fixed. We therefore offer the resolution herewith, and ask its adoption.

APPENDIX N.o. 187.

OFFICE OF THE MAYOR OF THE  
CITY OF PHILADELPHIA, *November 26, 1873.*

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—I herewith transmit you a communication dated 22d inst. from Major General Charles M. Prevost, extending an invitation to the Mayor and members of Councils to review the troops of the 1st, 2d and 3d Divisions, National Guard of Pennsylvania, on Thursday next.

I have accepted the invitation and designated Broad and Sansom streets as the place for review ; the Union League having kindly offered the use of the stands, &c., requisite for the purpose mentioned.

I am, respectfully,  
WM. S. STOKLEY,  
*Mayor.*

HEAD QUARTERS 1ST DIVISION,  
NATIONAL GUARD OF PENNA.  
PHILADELPHIA, *November 22, 1873.*

HON. WM. S. STOKLEY,  
Mayor City of Philadelphia :

SIR :—I am happy to extend to yourself and the members of Councils an invitation to review the troops of the 1st, 2d and 3d Divisions, National Guard of Pennsylvania, on the 27th inst, at such place as you may designate on Broad street.

I am, very respectfully,  
Your obedient servant,  
CHARLES M. PREVOST,  
*Major General Commanding.*

## APPENDIX No. 188.

## RESOLUTION

To repair Ridge avenue.

*Resolved*, That the Select and Common Councils of the City of Philadelphia be requested to authorize the parties responsible for the present impassable condition of Ridge avenue between the Wissahickon creek and the Presbyterian church at the Falls of the Schuylkill, to repair said highway forthwith, in such a manner as will render safe as well as facilitate the large amount of traffic daily transported over it.

## APPENDIX No. 189.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—The Committee on Finance respectfully report that they have considered the Controller's statement of the finances for 1874, and find that the estimated expenses of the departments are in excess of 1873, \$1,444,362.61.

That the liabilities of 1874 are in excess of 1873.....	\$2,817,045 68
Assets of 1874 are in excess of 1873 .....	1,487,983 57
Deficiency to be provided for over last year.....	\$1,329,062 11
Excess of property of 1874 over 1873, full, \$9,869,556 @	
\$2.10.....	\$207,260 67
Suburban, \$951,321 @ \$1.40 .....	13,318 49
Farm, \$230,390 @ \$1.05. ....	2,419 09
	\$222,998 25
Five cents additional on valuation.....	275,091 17
Amount in excess by taxation over last year.....	\$498,089 42
Deficiency to be provided for in liabilities over assets....	\$1,329,062 11
Amount in excess by increase of valuation and rate over last year.....	498,089 42
Deficiency by the rate of \$2.10 .....	\$830,972 69

The Committee expect to overcome the deficiency to some extent or perhaps wholly by a reduction of the estimates by the Finance Committee, and the striking out of some amounts not properly liabilities. The Committee are aware of the fact that there is a large sum of money on hand bearing no interest, realized from the sale of loans which can be used for current expenses, other than those for which the loans were raised, as the improvements to be paid for out of these loans will not be completed during 1874. It has been the policy heretofore to use the proceeds of loan in this way, and it has saved to the City a large amount of interest. The Committee believe that the City government is carried on more economically by a depleted treasury than a plethoric one, and it is much better to have a small deficiency than a large surplus. For these and other reasons the Committee report a tax of \$2.10 on the hundred dollars. The Committee have fixed the tax for the public buildings at 10 cents on the hundred dollars, believing from what they have expended of the proceeds of 1873 will produce a sufficient sum for their purposes in 1874. The Committee submit the annexed Ordinance to fix the rate and recommend its passage.

## APPENDIX No. 201.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN:—Your Committee on Surveys and Regulations, to whom was referred the resolutions directing the construction of certain sewers, viz.: on Chestnut street, from Fifth to Sixth, on Locust street, between Eighth and Ninth streets, and on Uber street, between Norris and Berks streets, report that after examination by the Board of Surveyors, are of opinion that these sewers are highly neces-

sary and should be constructed as early as possible; that upon Chestnut street should be extended from about 210 feet west of Fifth street to 120 feet east of Fifth street, and on Fifth street, from Chestnut street to Library street, there to connect with a sewer carried at that point, this will relieve and complete the drainage in the locality of Fifth and Chestnut streets, where, as is apparent to all, it is much needed. The aggregate length of these sewers is 1,715 feet, which will cost the City not exceeding \$1,050 (this covers the sixty cents per foot also), and property owners upon their lines, \$3,762. We herewith present a bill for their construction, and respectfully ask its adoption.

## AN ORDINANCE

To authorize the appointment of an additional clerk of markets.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That from and after the first day of January, eighteen hundred and seventy-four, the Commissioner of Markets and City Property shall appoint one person to act as clerk of the market lately erected at Eighth and Christian streets, whose compensation shall not exceed the sum of five hundred (500) dollars per annum.

## APPENDIX No. 206.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—The Committee on Markets, to whom was referred the resolution relative to the leasing of the stalls in the South Eleventh Street Market sheds and to dispose of the said sheds at public sale, have given the subject careful consideration ; the Committee visited the locality and examined the sheds, they found that the property owners on either side of Eleventh street where the sheds are located are almost unanimously in favor of their removal, they also found that the buildings are badly in need of thorough repair which would necessitate the expenditure of a considerable sum of money. The removal of the sheds will greatly improve the street and the neighborhood and will add largely to the value of property, and thereby increase the receipts from taxation in the vicinity to a considerable extent. The Committee in view of these facts have agreed to recommend the passage of the annexed resolution in instruction the Commissioner of Markets and City Property not to enter into any new leases for the stalls in the market houses, to notify the occupants of the same to vacate them on thirty days' notice and to offer the same at public sale within three months from the first day of January, 1874.

## APPENDIX No. 207.

To the Select and Common Councils  
of the City of Philadelphia:

We, the undersigned renters and occupants of the stalls situated in the South Eleventh (11th) Street Market, beg leave to inform your honorable bodies that the assertions made use of at your last meeting is incorrect, as far as the market sheds being in an untenanted condition and needing repairs which would cost the City a large amount of money. As far as we the undersigned occupants of the stalls in the above named market know, they were never in any better condition than they are at the present time, and will need no repairs for the next five (5) years. As we, the occupants, take pride in fitting our stalls up at our own expense and keeping the same in good condition without any expense to the City.

 APPENDIX No. 234.

To the Select and Common Councils  
of the City of Philadelphia:

GENTLEMEN:—Your Committee on Surveys and Regulations, to whom was referred the application of owners of property on Bridge street and vicinity, in the Twenty-third Ward, asking that the system of streets on Section 258 should be changed, so that the fronts on Bridge street should not be cut up diagonally, respectfully report that the system for streets in the Twenty-third Ward, between Bristol turnpike and the Delaware river, has been made to be parallel to and at right angles to Tulip street. The plan was made to break with the Frankford streets at Bridge street, by making the break in the two systems at Dark run lane, four squares more northeast, the injury to these properties will be avoided. The subject has been carefully examined by the Board of Surveys and approved by them. The cost of making the survey, and plans to correspond, is seven hundred dollars. We present the annexed resolution, and recommend its adoption.

## APPENDIX No. 235.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the resolutions “to revise the lines and grades of the Seventh Section of the late Township of Blockley,” and “Eighth Section of West Philadelphia,” report that they learn from the Board of Surveyors that the Seventh Section is covered by plans Nos. 142 and 150, that the revision is made necessary owing to the close proximity of many of the streets, some of them being only sixty feet apart, and the necessity for locating other streets for the purpose of draining two or three natural streams, which, with other advantages, would save the City an immense amount in the cost of grading, besides, by an act of Assembly, Lansdowne avenue or Media State road, was directed to be continued eastward into this section further than laid down on City plan, requiring a modification of the grades of streets affected thereby.

The Eighth Section is covered by plan No. 106, and the revision is made necessary owing to Fairmount Park having taken all the land north of and fronting Girard avenue on the Park line, which compels an entire change of water courses to the Schuylkill river. The Pennsyl-

vania Railroad and the Connecting Railroad on the south, prevents the carrying out of the original plan, and in order to make the property lying between Fairmount Park, the Pennsylvania Railroad and Forty-first street available, we present the resolution herewith, and respectfully ask its adoption.

## APPENDIX No. 236.

To the Select and Common Councils  
of the City of Philadelphia:

GENTLEMEN:—Your Committee on Surveys and Regulations, to whom was referred the resolutions and petitions for sewers, report that these have all been examined by the Board of Surveyors, who approve them as being needful and necessary for private drainage in present and contemplated improvements, as well as of great importance to the City in providing for surface drainage—the aggregate length is 3,600 feet, at a cost to the City of about \$2,000—and to property owners upon their lines, \$7,843. We re-

spectfully ask your approval of the bill herewith presented for their construction.

## AN ORDINANCE

To authorize the construction of sewers on Meredith, Adams, Twenty-third Woodlands, Brown, Edwin, Filbert, Front and New streets, and on Park avenue.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewers, viz.: On Meredith street, from the west curb line of Twenty-third street to the sewer in Twenty-fourth street; on Adams street, from the sewer in Coral street, southeasterly eighty feet; on Twenty-third street, from the sewer on Race street to the summit, about two hundred feet south of Race street; on Woodlands street, from Walnut street to Locust street; on Brown street, from the sewer in Broad street to the east curb line of Fifteenth street; on Edwin street, from the sewer in Ridge avenue to Geary street; on Filbert street, from the eastern terminus of the sewer now in Filbert street, between Fifteenth and Sixteenth streets, to a point sixty feet eastward of the same; on Front street and on New street, commencing at the sewer at Front and Vine streets, and extending southward along Front street to New street, and thence westward along New street to the west curb line of Second street; on Park avenue, from the sewer in Master street to the south curb line of Jefferson street. Said sewers to be built of brick, circular in shape, and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SECT. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewers above designated, and he shall allot the same to the lowest bidders, and it shall be a condition

of said contract that the contractor shall accept the sums assessed upon and charged to the properties lying on the lines of said sewers, in manner and form authorized by Ordinance entitled "An Ordinance regulating the assessment upon property for the construction of branch culverts or drains," approved May 12th, 1866, and supplement thereto approved February 16th, 1869; any excess over and above said assessment, in addition to that provided for by Ordinance entitled "An Ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes, and legal deductions in the construction of branch sewers," approved April 3d, 1868, to be charged to item (for branch sewers) of annual appropriation made to the Department of Highways for the year 1874: *Provided*, Said excess does not exceed two thousand (2,000) dollars.

## APPENDIX No. 237.

To the Select and Common Councils  
of the City of Philadelphia :

GENTLEMEN :—Your Committee on Surveys and Regulations, to whom was referred the resolution to place Drum street, from Buttonwood to Noble streets, upon the City plan, report that from information received from the Board of Surveyors, they find Drum street to be a private street or court of the width of twenty feet, and improved with brick buildings, running south from Buttonwood street in the centre of the block between Eighth and Garden streets, and extending about half way through to Noble street. The southern half end of said proposed Drum street to Noble street, would run through private property, for which damages would have to be paid; the Buttonwood street end, as opened and built upon, could not be made wider than twenty feet, without incurring heavy damages. We, therefore, return the resolution with a negative recom-

mentation, and respectfully ask the adoption of the resolution to discharge, &c.

## APPENDIX No. 294.

## AN ORDINANCE

Approving the substitution of iron plate girder spans for solid retaining wall for part of Fairmount Bridge.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain,* That the substitution of the plate girder spans for the solid masonry of Fairmount Bridge, at the west side of Thirtieth street, be and the same is hereby approved, and the Chief Engineer and Surveyor is authorized to estimate for payments, in accordance with the change in the quantity and character of the work.

SECT. 2. The proposals of J. H. Linville, President of the Keystone Bridge Company, and the terms offered by Wm. M. Wiley, contractor for masonry, are hereby accepted: *Provided,* That it will effect a saving to the City of fifteen thousand (15,000) dollars in the cost of the bridge.

OFFICE OF THE CHIEF ENGINEER AND SURVEYOR.

PHILADELPHIA, *December 3, 1873.*

EDWARD LYSTER, ESQ.,

Chairman of Committee on Surveys:

DEAR SIR:—I have submitted to Wm. M. Wiley, the contractor for masonry of Fairmount Bridge, the proposition to substitute iron plate girder spans for the solid masonry retaining wall on Bridge street, extending from Thirtieth westward about 150 feet. I have also obtained from the Keystone Bridge Company, a proposal for the iron work, a copy of which is appended. At these rates the estimates for iron work is \$35,000, and the reduction in masonry is \$50,000, making a saving of \$15,000. Notwithstanding the large reduction in the masonry work, Mr. Wiley will agree to the change, as shown by his reply, a copy of which is also appended. The City Solicitor gives his opinion favorable to the change, and as the City will thereby save \$15,000 in the cost of the work, and the arrangement will improve the appearance of the structure, thus harmonizing with the general design, and corresponding with the other portions in strength and permanency, I recommend that the change should be made.

Respectfully submitted,

SAMUEL L. SMEDLEY,

*Chief Engineer and Surveyor.*

OFFICE OF THE KEYSTONE BRIDGE COMPANY.

PHILADELPHIA, *November 11, 1873.*

SAMUEL L. SMEDLEY, ESQ.,

Chief Engineer and Surveyor City of Philadelphia:

DEAR SIR:—The Keystone Bridge Company propose to furnish and erect the iron of the extension of Fairmount Bridge, western approach from Bridgewater street to Pennsylvania Railroad, about 150 feet, as per plans of engineer, at rates as follows:

For wrought iron work,  $9\frac{3}{10}$  cts. per lb.

For cast iron work,  $6\frac{1}{4}$  cts. per lb.

For cast iron railing pedestals, each \$40.

For one globe lampstand and connections, each \$65.

For three globe lampstands and connections, each \$100.

This work is on a curve, which will increase the cost; and the material of floor, &c., being now higher than when we made our original proposal, the above rates are as low as we can afford to offer. Trusting they will be satisfactory,

I remain,

Yours, respectfully,

J. H. LINVILLE,

*President.*

SAMUEL L. SMEDLEY,

Chief Engineer and Surveyor :

SIR:—I have examined your statement and estimate of the relative quantities of mason work in the present plan of Fairmount Bridge, and your proposed change to plate girder spans with pieces, for a distance of 150 feet west of Thirtieth street.

Basing the cost of iron work at your estimate of \$35,000, I will agree to the change in the plan, and do the graduation and masonry for such allowance consequent to the change in the character of the work, as will save to the City \$15,000 in the cost thereof.

Very respectfully,

Your obedient servant,

W. M. WILEY.

LAW DEPARTMENT OF THE  
CITY OF PHILADELPHIA.

PHILADELPHIA, *December 3, 1873.*

SAMUEL L. SMEDLEY, ESQ.,

Chief Engineer and Surveyor :

DEAR SIR:—I am instructed by the City Solicitor to say in reply to yours of the 18th ult., relative to proposed changes in the plan of Fairmount Bridge, that such changes will not, in his opinion, interfere with the claim of the City against Mr. Kennedy, upon the contract previously made with him.

As to the form of the Ordinance, I am instructed to say that it would be better if it simply accepted the proposals of J. H. Linville, President, for the iron work incidental to the changes proposed.

Mr. Wiley's communication can hardly be said to be a "proposal."

The proviso concerning the approval of the City Solicitor, should not be in the Ordinance, inasmuch as such approval has been asked in advance of its passage.

Yours, respectfully,

ROBERT N. WILLSON,  
*Assistant City Solicitor.*

## A P P E N D I X No. 303.

To the Select and Common Councils  
of the City of Philadelphia:

GENTLEMEN:—Your Committee on Surveys and Regulations, to whom was referred the petitions for sewers, report that the customary examination and report of the Board of Surveyors has been had, from which we learn that these sewers are highly needful, and necessary for the benefit and convenience of properties upon their

lines, and of great advantage to the City in correcting surface drainage in their vicinity. The board further reports that the aggregate length of these sewers will be 3,627 feet, costing the City about \$1,300, and the property owners \$8,657. We present a bill herewith, for which we respectfully ask your approval.

## AN ORDINANCE

To authorize the construction of sewers on Fortieth, Filbert, Sloan, Ninth, Baker, Gay, Cresson, Summer and Sixth streets.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Highways be and is hereby authorized to construct the following sewers, viz.: On Fortieth street, from the sewer in Market street to Filbert street, along Filbert street to Sloan street, and along Sloan street to a point seventy-five feet south of Powelton avenue; on Ninth street, from Washington avenue to Christian street; on Baker, Gay and Cresson streets, from the sewer now laid in Baker street to connect with the sewer in Levering street; on Summer street, from Fifteenth street to Sixteenth street; on Sixth street, from the north curb line of Cambria street to connect with the sewer in Clearfield street.

Said sewers to be built of brick, circular in shape, and in accordance with specifications prepared by the Chief Engineer and Surveyor.

SECT. 2. The Chief Commissioner of Highways shall advertise according to law, announcing that bids will be received for the sewers above designated, and he shall allot the same to the lowest bidders, and it shall be a condition of said contract that the contractor shall accept the sums assessed upon and charged to the properties lying on the lines of said sewers in manner and form authorized by Ordinance entitled "An Ordinance regulating the assess-

ment upon property for the construction of branch culverts or drains," approved May 12th, 1866, and supplement thereto, approved February 16th, 1869; any excess over and above said assessment, in addition to that provided for by Ordinance entitled "An Ordinance authorizing the Chief Commissioner of Highways to draw warrants for street intersections, manholes, and legal deductions in the construction of branch sewers," approved April 3d, 1868, to be charged to Item (for branch sewers) of annual appropriation made to the department of Highways for the year 1874: *Provided*, Said excess shall not exceed the sum of thirteen hundred (1300) dollars.

## APPENDIX No. 307.

To the Presidents and Members of the Select and  
Common Councils of the City of Philadelphia :

GENTLEMEN :—Your Committee on Port Wardens, to whom was referred the petition of the West Jersey Ferry Company, asking for an extension of the lease of Market street wharf, Delaware, would respectfully report that we have given the subject our careful consideration, and would state that said wharf has been occupied by this company for nearly thirty (30) years, and a great portion of that time they have paid an annual rent of \$2,600. These ferries are a great convenience to business men, and the public generally. The company propose to make such improvements as will, in a short time, enable them to place larger boats on their line; they also propose to pay a rent of \$3,000 per annum, an increase of \$400, and to keep the wharf in repair, and dredge the docks at their own expense, and at the end of their term, all the improvements to revert to the City. We therefore report the annexed Ordinance, and ask its adoption.

## AN ORDINANCE

To authorize the Commissioner of Markets and City Property to enter into a new lease with the present lessees of Market street landing, Delaware, south side, the same to take effect on the expiration of the present lease.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Commissioner of Markets and City Property be and he is hereby authorized to enter into a new lease (to take effect on the expiration of the present lease) with the West Jersey Ferry Company, the present lessees of Market street landing, south side, on the river Delaware, for a term of ten (10) years from the expiration of the present lease, at an annual rental of three thousand (3,000) dollars: *Provided*, That the lessees shall keep the wharf and slip in good order and repair, and dredge the dock during the term, and at the end thereof deliver the wharf and slip in good order and repair, without any cost or expense to the City for improvements or repairs. All improvements or repairs to be done under the supervision, and subject to the approval of the Commissioner of Markets and City Property.

## APPENDIX No. 308.

To the Presidents and Members of the Select and  
Common Councils of the City of Philadelphia :

GENTLEMEN:—The Committee on Port Wardens, to whom was referred the communication of Henry Winsor, of the Boston and Philadelphia Steamship Company, relative to purchasing that portion of Pine street wharf, on the river Delaware, would respectfully report that we have carefully considered the matter, and would state that this is the only wharf in which the City is a part owner. A large portion of the pier has been taken by the City, in widening Delaware avenue, greatly diminishing the size and value thereof. The steamship company propose making extensive improvements to accommodate their large business; and as this line of steamers are a great benefit to the commercial interests of the City, we are of the opinion

that the same should be sold at public auction. We therefore report the annexed Ordinance, and ask its adoption.

WM. H. EHRET,	WM. WRIGHT.
THOS. H. SPENCE,	CHRISTOPHER BINDER,
HENRY GLASS,	JOSEPH P. BOON,
B. F. STOKES.	

## AN ORDINANCE

To authorize the sale of that portion of Pine street wharf, on the river Delaware, belonging to the City.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Commissioner of Markets and City Property be and he is hereby authorized and directed to sell at public sale that portion of Pine street wharf, on the river Delaware, belonging to the City, and place the proceeds thereof to the credit of the Commissioners of the Sinking Fund: *Provided*, The price bid shall meet the approval of the Commissioner of Markets and City Property. And the Mayor of the City is hereby authorized to execute and affix thereto the corporate seal of the City to the deed therefor to the purchaser.

APPENDIX No. 325.

OFFICE OF THE CHIEF ENGINEER AND SURVEYOR,  
PHILADELPHIA, *December 27, 1873.*

HON. A. WILSON HENSZEY,

President Common Council :

DEAR SIR:—The meadow drainage channel in the Twenty-sixth Ward has been completed, according to the specifications, by the contractors, the American Dredging Company, and their work accepted. These banks and the sluices require constant attention to keep them in working order, and where complaints have been made, I have referred the parties to the Greenwich Island Meadow Company for redress, the company have declined to take charge of these drains, and they are consequently left without any supervision, without which they are liable at any time to

become inoperative, or to break and flood a great part of that section of the City.

Without any precise knowledge of the legal standing of the City in the matter, I have declined to take any other action, but deem it my duty to inform Councils of the condition of affairs, so that they may determine who is responsible for the care of these improvements.

Very respectfully,

SAMUEL L. SMEDLEY.

## APPENDIX No. 326.

## APPENDIX No. 332.

- To the Presidents and Members of Select and Common Councils of the City of Philadelphia :

GENTLEMEN:—The Committee on Port Wardens, to whom was referred the communication of A. P. Colesbury, Harbor Master, asking the City to furnish him with a tug boat, would respectfully report that we have given the subject our consideration, and are of the opinion that the interest of the City will not be materially affected, by declining to furnish

the boat, we therefore report the same back with a negative recommendation.

A. L. HODGDON.

## RESOLUTION

To discharge the Committee on Port Wardens from the consideration of a tug boat.

*Resolved by the Select and Common Councils of the City of Philadelphia*, That the Committee on Port Wardens be discharged from the further consideration of the subject of a tug boat for the harbor master.

## APPENDIX No. 333.

To the Presidents and Members of Select and  
Common Councils of the City of Philadelphia :

GENTLEMEN :—Your Committee on Port Wardens, to whom was referred the petition of the Camden and Atlantic Railroad Company, asking an extension of their lease of Vine street wharf, respectfully report that we have carefully considered the same, and would state, that if said extension is granted, the company propose to expend a large sum of money in erecting buildings for the reception of freight at said point, thereby greatly facilitating the business of our merchants in shipment of same, as well as reducing the receipts of the company by the loss of the ferriage. It is from this point that a great portion of our farm produce is landed and distributed throughout the City ; for these reasons, and the great convenience afforded by this ferry to the community in general, we are of the opinion

that the prayer of the petitioners should be granted. We therefore offer the annexed Ordinance, and ask its adoption.
